

Use BRDs It's the Law*

Crab pots used by waterfront property owners in Maryland must be:

- 1) Fitted with a Bycatch Reduction Device (BRD) in every entry funnel.
- 2) Marked with the owner's name and address.

In Maryland, the BRD opening must be no larger than 1 3/4" x 4 3/4".

The diamondback terrapin is Maryland's state reptile, our state university mascot, and the only turtle that lives its entire life in the tidal waters of the Chesapeake Bay.

The BRD is easy to install and allows crabs to enter the pot but prevents diamondback terrapins from entering. Turtles and other animals that enter crab pots without a BRD cannot escape from the pot and will drown.

**Obey the law.
Catch the Crabs.
Save the Turtles.**

Manufacturers and Retailers Selling Bycatch Reduction Devices (BRDs)
