

# Gunpowder Falls State Park

Colonial Quest – Hike Through History

# Introduction

## *Welcome to Gunpowder Falls State Park!*

Nestled on the north bank of the Little Gunpowder Falls, the historic Jerusalem Mill Village is a living time capsule! In 1772 Lee's Merchant Mill opened its doors for business and laid the foundation for what would become the complete village before you.

The success of Jerusalem Mill Village was due largely to the variety of useful services it provided to the local farming community. At its peak, the village boasted a grist mill, blacksmith shop, wheelwright, sawmill, general store, and even a post office!

Take a hike through history and see what life was like in a time very different from your own!

Today you'll be participating in a scavenger hunt throughout the park! There is a box hidden at each of 9 key historical sites throughout the village. Use the information hidden in each box to answer each question you find.

There will also be a riddle to help guide you to the location of the next box. The answers to the riddles can be found in the historical brochures located at the information kiosk by the parking lot as well as on the door to Lee's Merchant Mill.

Use these clues to navigate the village in the right order and find the Jerusalem Mill stamp, all the while learning about what made Jerusalem Mill Village so important to daily life back in the day!

The **first box** is located just outside the entrance to **Lee's Merchant Mill**, pictured above. There are bonus stamps available for special challenges as well!

**Remember to use caution when crossing the road! Use the crosswalks provided.**

*Good luck and have fun!*
