Emergency Regulations

Under State Government Article, §10-111(b), Annotated Code of Maryland, an agency may petition the Joint Committee on Administrative, Executive, and Legislative Review (AELR), asking that the usual procedures for adopting regulations be set aside because emergency conditions exist. If the Committee approves the request, the regulations are given emergency status. Emergency status means that the regulations become effective immediately, or at a later time specified by the Committee. After the Committee has granted emergency status, the regulations are published in the next available issue of the Maryland Register. The approval of emergency status may be subject to one or more conditions, including a time limit. During the time the emergency status is in effect, the agency may adopt the regulations through the usual promulgation process. If the agency chooses not to adopt the regulations, the emergency status expires when the time limit on the emergency regulations ends. When emergency status expires, the text of the regulations reverts to its original language.
