

Speed Zone Request Map

Marley Creek - June 2023

The Department received a request to create a 6-knot speed zone in Marley Creek to be effective at all times during the boating season. The requestor stated: “Since many of the other creeks near Marley Creek the boats and jet skis like to come speed up and down our creek. This is creating large wake that is disrupting shoreline. There are many grassy habitats in this creek that need to be protecting. Potential noise from boats speeding up and down all summer could also disrupt habitat.”
