Local government projects that include disturbance in the Critical Area must coordinate review of those projects with Critical Area Commission staff prior to start of construction. If the project is consistent with the requirements of the local Critical Area program, the agency proposing development must obtain certification from the department with the delegated authority (Responsible Agency) for the Critical Area program. A description of the proposed project and the request for local certification shall be submitted to the Critical Area Commission. A Local Consistency Report Form is available on the Commission’s website.
If a proposed project is **NOT** consistent with the local Critical Area program (COMAR 27.02.02), OR the project meets the definition of “**major development**” (COMAR 27.02.04) then the Responsible Agency shall submit the project to the Critical Area Commission for review and approval. This form is for those projects that require review and approval by the Critical Area Commission.

➢ **Project Coordination**

Please be aware that projects may only be scheduled for review by the Commission if staff determines the project application is complete. While not required, we recommend coordinating early with Commission staff in order to prepare full and complete project applications in a timely manner. Initial contact with Commission staff may be made by phone, email or by U.S. mail. Please provide staff with preliminary plans and information regarding the proposal and the requirements of COMAR 27.02.05. Commission staff will provide feedback and guidance on Critical Area development and mitigation requirements.

➢ **Public Notice**

In accordance with COMAR 27.03.01.03, the Responsible Agency must demonstrate that the project has met or will meet the applicable Notice Requirements for State Agency and Local Agency Development (see Attachment A) by the date of the scheduled Commission meeting. Public notice requirements include evidence of the following:

1) Public notice of the project was published for one business day in a newspaper of general circulation in the geographic area in which the proposed development would occur;
2) At least 14 days were provided for public comment in the local jurisdiction in which the proposed development would occur; and
3) The affected land was posted in accordance with the posting requirements in COMAR 27.03.01.03 D.

➢ **Complete Submittal Package**

A complete submittal package must be sent to the Critical Area staff 6 weeks prior to a scheduled review by the Project Subcommittee (see schedule, Attachment B). A complete submittal includes the following:

1) The completed checklist and supporting documentation;
2) Maps and site plans;
3) Evidence of public notice, including: copies of all public comment received; Copy of the newspaper ad; and photograph showing the posting of the affected property;
4) For projects in the IDA, information demonstrating compliance with the 10% pollutant reduction rule; including a copy of the Commission’s Stormwater Spreadsheet and related stormwater management plans. Requirements can be found on the Commission’s website.

5) If applicable, proposed Buffer Management Plans, Forest Mitigation planting plans, Planting Agreement Forms, and other necessary information documenting how mitigation requirements are met. Requirements can be found on the Commission’s website.

6) If applicable, final sediment and erosion control approval and stormwater management approval is required, or must be in final design stage.

7) If applicable, all Maryland Department of the Environment wetland authorizations (tidal and nontidal) and correspondence to and from the Department of Natural Resources and the Maryland Historic Trust (if required).
APPLICATION CHECKLIST

**General Project Information**
Please include the following text information, if applicable to the site, in the project application materials. This information may be included in the form of letters, reports, or site plan notes.

___ Project name and location
___ Project Purpose
___ Agency sponsoring project
___ Project description
___ Anticipated timeline
___ Total acreage in Critical Area
___ Total forest area cleared
___ Method of stormwater control
___ Area of Disturbance within Buffer
___ Whether project is on locally-owned, privately-owned, or leased land
___ Area of Canopy Clearing within Buffer
___ 10% Stormwater Rule Spreadsheet
___ Soil erosion and sediment control measures and implementation strategy
___ Lot coverage information
___ Mitigation required for clearing of forest area
___ Mitigation required for impacts to the Buffer
___ Afforested area

**General Mapping Features**
Please include the following features on all site plans:
___ Vicinity map
___ Project boundary
___ Scale
___ Orientation
___ Project Name and Location
___ Tract or lot lines
___ Critical Area boundary (Breakdown by IDA, LDA, RCA)
___ Limit of Disturbance
___ Limit of Disturbance within Buffer
___ Area of canopy clearing within Buffer
__ One hundred-year floodplain boundary
__ Agricultural lands
__ Dredging activity and spoil site
__ Topography
  - Including steep slopes (15% or greater) and proposed grading.
__ Soil
  - Type
  - Area of hydric soils
  - Area of highly erodible soils
__ Vegetative cover
  - Existing Forest

**Habitat Protection and other Sensitive Area Mapping Features**
Please show the following Habitat Protection Area features on all site plans, if relevant to the particular project site:

__ Buffers:
  - Minimum 100 ft. from tidal waters, landward edge of tidal wetlands and tributary streams
  - Expanded Buffer to include 15% or greater slopes, hydric soils and highly erodible soils
  - 25 ft. from nontidal wetlands
__ Tidal Wetlands
__ Nontidal Wetlands
__ Threatened and Endangered Species, Species in need of conservation
__ Existing and proposed structures
  - Including, buildings, roads, paved areas or other areas of lot coverage, parking lots, storm drains, septic areas, stormwater management systems, and shore erosion control structures.
__ Surface mining sites and wash plants
__ Plant and Wildlife Habitats
  - Colonial water bird nesting sites, historic waterfowl staging and concentration areas, riparian forest, forest interior dwelling bird habitat, areas of state or local significance, and natural heritage areas
__ Anadromous Fish Propagation Waters
Mitigation Planting Plans (Buffer Management Plans, Forest Mitigation Plans, Other Plans)

If mitigation is required as a result of the project, the submittal must include a proposed mitigation plan demonstrating compliance with the requirement. A Planting Agreement Form must also be submitted with all mitigation plans (Attachment C).

A plan drawn to scale showing:

___ Limit of disturbance
___ Total area of canopy cover removed
___ Arrangement of the proposed planting

A landscape schedule that meets the planting standards outlined in COMAR 27.01.09.01-2 and that includes:

___ Species type
___ Quantity of plants
___ Size of plants proposed
___ Proposed planting date

A maintenance plan that includes:

___ Invasive species and pest control practices
___ Watering schedule
___ Signature of the responsible party
___ Provisions for a minimum of 2 years of monitoring.
___ A reinforcement planting provision if survival rates fall below 80%.

Minimum Documentation Requirements

Copies of the following permits/documents should be included in the application package or must be in their final stages (i.e., public comment period completed, permit conditions in final form), if applicable to the site, prior to scheduling the project for review by the Project Subcommittee:

___ Maryland Department of the Environment (MDE)
   ___ Tidal wetlands approval Tracking #: License #:
       Application Submission Date:
       Approval Status: Pending _____ Issued ______
   ___ Nontidal wetlands and waterways approval Tracking #: License #:
       Application Submission Date:
       Approval Status: Pending _____ Issued ______
   ___ Water Quality Certification Tracking #: License #:
       Application Submission Date:
       Approval Status: Pending _____ Issued ______
   ___ Stormwater Management approval Tracking #: License #:
       Application Submission Date:
       Approval Status: Pending _____ Issued ______
Application Submission Date: Pending _____ Issued _____

Sediment and erosion control plan approval Tracking #: License #:

Application Submission Date: Pending _____ Issued _____

U.S. Army Corps of Engineers (ACOE) Permit

Permit Type:

Nationwide Permit
Regional General Permit
State Programmatic General Permit

Tracking #: Authorization #:

Application Submission Date: Pending _____ Issued _____

Maryland Department of Natural Resources (DNR)

Environmental Review letter

Date Submitted:

Maryland Historical Trust (MHT)

Review letter

Date Submitted:

State / Federal Agency Recommendations

Review and comment from the appropriate MDE, MHT, DNR, and ACOE units is required, if applicable to the site, for the following resources and habitats:

Threatened and Endangered Species
Plant and Wildlife Habitat
Riparian Forests
Forest Interior Dwelling Birds (FIDs)
Natural Heritage Areas
Colonial water birds
Submerged Aquatic Vegetation
Anadromous Fish Propagation Waters
Other Aquatic Species (Shellfish, etc.)
Historic Waterfowl Staging and Concentration Areas
Historic Resources (MHT)
**Site Visits**
Site visits should be arranged with Commission staff by the responsible agency.

**Formal Submission**
Application of a complete package may be made by U.S. Mail or electronically via email. Electronic submissions are preferred.

NOTICE REQUIREMENTS

27.03.01.03

.03 Notice Requirements for State Agency and Local Agency Development.

A. The requirements of this regulation do not apply to development that a State agency or local agency proposes in the Critical Area if:

(1) As provided under COMAR 27.02.02, the development is:
   (a) A State agency action that results in development of local significance on private lands or lands owned by a local jurisdiction; or
   (b) A local agency action that results in development of local significance on private lands or lands owned by a local jurisdiction;

(2) The development is included in a general approval, as provided under COMAR 27.02.03; or;

(3) All of the following:
   (a) The development is proposed on State lands;
   (b) The State agency is otherwise required by operation of law to provide public notice and public comment for that type of development; and
   (c) Posting is accomplished in accordance with §D of this regulation.

B. Public Notice.

(1) Except as provided under §A of this regulation, a State agency or local agency that proposes development in the Critical Area shall, as part of its project submittal to the Commission, provide evidence that:
   (a) Public notice was published for 1 business day in a newspaper of general circulation in the geographic area in which the proposed development would occur;
   (b) Publication included:
      (i) The identity of the sponsoring State agency or local agency;
      (ii) A description of the proposed development;
      (iii) The street address of the affected land and a statement that its location is in the Critical Area; and
      (iv) The name and contact information of the person within the sponsoring State agency or local agency designated to receive public comment, including a fax number and email address, and the deadline for receipt of public comment;
   (c) At least 14 days were provided for public comment in the local jurisdiction in which the proposed development would occur; and
(d) The affected land was posted in accordance with §D of this regulation.

(2) In addition to the public notice required under §B(1)(a) and (b) of this regulation, a State agency or local agency may provide for public notice:

(a) By electronic posting on its website or the website of a newspaper of general circulation in the local jurisdiction in which the proposed development would occur; or

(b) To a neighborhood association or residents of a particular geographic area.

C. Evidence of public notice and opportunity for public comment required under §B(1)(a) and (c) of this regulation shall include at least the following documentation:

1. The name of the newspaper and the date on which the notice was published;

2. A copy of the public notice as it was published in the newspaper; and

3. A copy of each written comment received in response to the public notice.

D. The sponsoring State agency or local agency shall ensure that the posting required under §B(1)(d) of this regulation meets the following requirements:

1. The sign is at least 30 inches by 40 inches in size;

2. The sign clearly:

   a. Identifies the sponsoring State agency or local agency;

   b. Describes the proposed development;

   c. Provides the street address of the affected land and states that it is located in the Critical Area; and

   d. States the name and contact information of the person within the sponsoring State agency or local agency designated to receive public comment, including a fax number and email address, and the deadline for receipt of public comment;

3. On a date not later than the date on which the notice is published in the newspaper, the sign is posted in a conspicuous location on the affected land and remains there until after the Commission has voted on the development; and

4. For development that extends more than 1,000 linear feet in road frontage, at least one sign is posted at each end of the affected land on which the development is proposed.
