

## ***Critical Area Commission***

### **STAFF REPORT**

**November 5, 2025**

<b>APPLICANT:</b>	Town of Hillsboro
<b>PROPOSAL:</b>	Refinement - Comprehensive Review of Critical Area Program
<b>JURISDICTION:</b>	Town of Hillsboro (Caroline County)
<b>COMMISSION ACTION:</b>	Concurrence with Chair's Determination of Refinement
<b>STAFF RECOMMENDATION:</b>	Approval with Conditions
<b>STAFF:</b>	Annie Sekerak
<b>APPLICABLE LAW/ REGULATIONS:</b>	Natural Resources Article 8-1809(g) and Natural Resources Article 8-1809(r)

### **DISCUSSION:**

The Town of Hillsboro recently completed an effort to comprehensively review and update their Critical Area program as required by State law. On June 16, 2025, the Hillsboro Town Commissioners voted to amend the Town's Critical Area program within the Hillsboro Zoning Ordinance through the adoption of Ordinance No. 87. The proposed updates ensure compliance and consistency with the Critical Area law and regulations.

A copy of the adopted ordinance is attached to this staff report (Attachment 2).

### **Hillsboro Critical Area Overview**

The Town of Hillsboro is located along Tuckahoe Creek in Caroline County. The portion of the Town within the Critical Area is mostly located on land designated as Limited Development Area (LDA) with the exception of a small area of wetlands, which is designated as Resource Conservation Area (RCA).

### **Comprehensive Review and Update to Town of Hillsboro's Critical Area Program**

Natural Resources Article §8-1809(g) requires each local jurisdiction to comprehensively review and update their local Critical Area program at least every 10 years to ensure conformance with the requirements of the Critical Area law, criteria, and regulations. The Town last updated their Critical Area program in 2012.

The comprehensive update of the Town of Hillsboro's Critical Area program brings the Critical Area portion of the Town's Zoning Ordinance into conformance with the requirements of the Critical Area law and criteria. Changes to the Town's Critical Area program were based upon the model ordinance for municipalities, which was created by Critical Area Commission staff. The model provides all of the basic elements of the State Critical Area regulations, including development standards, density and use standards, amendment procedures, variance procedures, and enforcement procedures.

With this comprehensive review, the Town adopted the Commission's model ordinance; however, there are several minor administrative changes that staff recommend as a condition of approval (Attachment 1). Please note, the Town indicated they did not wish to opt into the nonwater-dependent structures on piers language, nor the accessory dwelling units in the RCA language; therefore, it is recommended that those sections be deleted from the ordinance.

### **RECOMMENDATION**

The comprehensive update of the Town of Hillsboro's Critical Area program meets the goals of the Critical Area law and standards for comprehensive review; therefore, the Program Committee recommends that the Commission concur with the Chair's determination that this comprehensive review be processed as a refinement.

Further, the Program Committee recommends the Chair approve this refinement with the following condition:

- Within 180 days of the date of Commission approval, the Town of Hillsboro shall incorporate into their Zoning Ordinance the recommended text edits described in Attachment 1 of this staff report.

### **ATTACHMENTS**

1. Recommended Changes
2. Adopted Ordinance No. 87

**ATTACHMENT 1**  
**Recommended Changes to Hillsboro’s Critical Area Ordinance No. 87**

Commission staff’s recommended changes are listed below. These changes are required to bring the Town’s Critical Area program into compliance with current Critical Area law and regulations.

Please have the Town update the following general comments:

- 1) Accept all track changes in the document
- 2) Remove all **bold** formatting not associated with headings
- 3) Remove all **highlighting**
- 4) Replace all instances of “Buffer Management Area” with “Modified Buffer Area”
- 5) Replace all instances of “BMA” with “MBA”

In addition, please have the Town make the following changes (all text in underline should be added; all text in ~~strikethrough~~ should be deleted):

*Section 3.3 Definitions*

~~92. Nonwater dependent project.\*~~

- (a) ~~“Nonwater dependent project” means a temporary or permanent structure that, by reason of its intrinsic nature, use, or operation, does not require location in, on, or over State or private wetlands.~~
- (b) ~~“Nonwater dependent project” includes:~~
- ~~(i) A dwelling unit on a pier;~~
  - ~~(ii) A restaurant, a shop, an office, or any other commercial building or use on a pier;~~
  - ~~(iii) A temporary or permanent roof or covering on a pier;~~
  - ~~(iv) A pier used to support a nonwater dependent use; and~~
  - ~~(v) A small scale renewable energy system on a pier, including:~~
    - ~~(aa) A solar energy system and its photovoltaic cells, solar panels, or other necessary equipment;~~
    - ~~(bb) A geothermal energy system and its geothermal heat exchanger or other necessary equipment; and~~
    - ~~(cc) A wind energy system and its wind turbine, tower, base, or other necessary equipment.~~
- (c) ~~“Non water dependent project” does not include:~~
- ~~(i) A fuel pump or other fuel dispensing equipment on a pier;~~
  - ~~(ii) A sanitary sewage pump or other wastewater removal equipment on a pier; or~~
  - ~~(iii) An office on a pier for managing marina operations, including monitoring vessel traffic, registering vessels, providing docking services, and housing electrical or emergency equipment related to marina operations.~~

*Section 7.1 Implementation of the Critical Area Program – Purpose and Goals*

3. Regulated Activities and Applicability. “The Town’s Critical Area Program and all applicable provisions of this Ordinance shall be implemented and enforcement by the Town ~~{Zoning Administrator}~~ Council.”

(A) “The ~~{Zoning Administrator}~~ Town Council shall review a permit, license, or other authorization for a development or redevelopment activity in the Critical Area for compliance with this Critical Area Ordinance prior to issuance of that permit or license.”

(B) “Should an infraction of the provisions contained in any law, regulation, or plan related to the Town’s Critical Area Program be brought to the attention of any Town official, said official shall contact the ~~{Code Enforcement Officer}~~ contracted inspection agency.”

7. General Requirement in all Critical Area Overlay Zones

~~(K) Non-Water Dependent Structures on Piers~~

~~(1) Except as provided in paragraphs (2) and (3) of this subsection and notwithstanding any other provisions of the law, Town of Hillsboro may not issue a building permit or any other approval to authorize a non-water dependent project located on State or private wetlands within the Critical Area.~~

~~(2) Town of Hillsboro may issue a building permit or any other approval to authorize a non-water dependent project located on State or private wetlands within the Critical Area if the project:~~

~~(a) Involves a commercial activity that is permitted as a secondary or accessory use to a permitted primary commercial use;~~

~~(b) Is not located on a pier that is attached to residentially, institutionally, or industrially used property;~~

~~(c) Is located in:~~

~~(i) An Intensely Developed Area (IDA); or~~

~~(ii) An area that has been excluded from a local Critical Area program if the exclusion has been adopted or approved by the Critical Area Commission for the Chesapeake and Atlantic Coastal Bays;~~

~~(3) Is approved by the Planning Commission and the Zoning Board after [Date of NWD opt-in];~~

~~(4) Allows or enhances public access to State wetlands;~~

~~(5) Does not expand beyond the length, width, or channelward encroachment of the pier on which the project is constructed;~~

~~(6) Has a height of up to 18 feet unless the project is located at a marina; and~~

~~(7) Is up to 1,000 square feet in total area; or~~

- ~~(a) Is located on a pier that was in existence on or before December 31, 2012;~~
  - ~~(b) Satisfies all of the requirements under Section (2)(a)-(g) of this paragraph; and~~
  - ~~(c) If applicable, has a temporary or permanent roof structure or covering that is up to 1,000 square feet in total area.~~
- ~~(8) Town of Hillsboro may issue a building permit or other approval to authorize a non-water dependent project for a small-scale renewable energy system on a pier located on State or private wetlands within the Critical Area if the project:~~
- ~~(a) Involves the installation or placement of a small-scale renewable energy system that is permitted as a secondary or accessory use on a pier that is authorized under Title 16 of the Environment Article;~~
  - ~~(b) Is approved by the Town of Hillsboro's Planning Commission and Zoning Board after [Date of NWD opt-in];~~
  - ~~(c) A building permit or other approval may include the installation or placement of:
    - ~~(i) A solar energy system attached to a pier of the device or equipment associated with that system does not extend more than:
      - ~~A. Four (4) feet above or 18 inches below the deck of the pier; or~~
      - ~~B. One (1) foot beyond the length or width of the pier;~~~~~~
  - ~~(d) A solar energy system attached to a piling if there is only one solar panel per boat slip;~~
  - ~~(e) A solar energy system attached to a boathouse roof if the device or equipment associated with that system does not extend beyond the length, width, or height of the boathouse roof;~~
  - ~~(f) A closed-loop geothermal heat exchanger under a pier if the geothermal heat exchanger or any associated devices or equipment do not:
    - ~~i. Extend beyond the length, width, or channelward encroachment of the pier;~~
    - ~~ii. Deleteriously alter longshore drift; or~~
    - ~~iii. Cause significant individual or cumulative thermal impacts to aquatic resources; or~~~~
  - ~~(g) A wind energy system attached to a pier if there is only one wind energy system per pier for which:
    - ~~i. The height from the deck of the pier to the blade extended at its highest point is up to 12 feet;~~
    - ~~ii. The rotor diameter of the wind turbine is up to four (4) feet; and~~
    - ~~iii. The setbacks of the wind energy system from the nearest property line and from the channelward edge of the pier to which that system is attached are at least 1.5 times the total height of the system from its base to the blade extended at its highest point.~~~~

*Section 7.4 Resource Conservation Areas*

~~D.1.(c) One additional dwelling unit (accessory dwelling unit) as part of a primary dwelling unit may be permitted in the Resource Conservation Area provided the additional dwelling unit does not require a variance to any critical area development standards; and~~

~~(i) Is located within the primary dwelling unit or its entire perimeter is within 100 feet of the primary dwelling unit and does not exceed 900 square feet in total enclosed areas; or~~

~~(ii) Is located within the primary dwelling unit and by its construction, does not increase the amount of lot coverage already attributed to the primary dwelling unit by greater than 900 square feet.~~

~~(d) An additional dwelling unit meeting all of the provisions of this section may not be subdivided or conveyed separately from the primary dwelling unit; and~~

~~(e) An additional dwelling unit that exceeds 900 square feet shall count towards the density calculations.~~

*Section 7.5 Land Use and Density*

**Table I(A) Permitted Uses**

<b>LEGEND:</b>	
P = <del>Permitted</del> <u>Permitted</u> if allowed in the underlying zoning district	<b>Land Use Management Designation</b>
PC = <del>Permitted</del> <u>Permitted</u> with conditions if allowed in the underlying zoning district	
NP = Not <del>permitted</del> <u>Permitted</u>	

*Section 7.6 Growth Allocation*

3. Process. “An applicant shall submit to Town of Hillsboro a complete application for growth allocation that complies with the submittal and environmental report requirements of COMAR 27.01.02.06-1—06-2. A Growth Allocation request shall be approved by [Local Approving Authority] the Town Council prior to submission to the Critical Area Commission.”

5. Standards.

c. A new Intensely Developed Area shall be at least 20 acres in size unless it is adjacent to an existing Intensely Developed Area.

*Section 7.9 Other Habitat Protection Areas*

2. “Maps identifying these specific Habitat Protection Areas are maintained by the Department of Natural Resources Wildlife and Heritage Division. The most recent updated inventory was completed on [INSERT DATE] in September 2025 and recommendations contained in [INSERT REFERENCE TO THE REPORT] are hereby incorporated into this Ordinance no HPAs, other than the Buffer, were identified within the Town of Hillsboro.”

*Section 12.7 Local Development Projects*

1. Applicability. “For all development in the Critical Area resulting from any action by the ~~[Municipality]~~ Town of Hillsboro on local or privately owned lands, the ~~[Municipality]~~ Town shall adhere to COMAR 27.02.02, COMAR 27.02.04 and COMAR 27.02.06.”

2. Procedures.

A. “If the project meets the provisions of this Ordinance and is minor development, the ~~[Planning Department]~~ Town shall prepare a consistency report and submit a copy of the report with relevant plans and information about the project to the Critical Area Commission per the requirements of COMAR 27.02.02.”

B. “If the project does not meet the provisions of this Ordinance, the ~~[Planning Department]~~ Town shall seek a conditional approval by the Critical Area Commission per the requirements of COMAR 27.02.06.”

3. Notice and posting requirements for projects reviewed and approved by the Critical Area Commission.

“Public notice is required for all development projects that qualify under COMAR 27.03.01.03. Public notice shall be the responsibility of the ~~[Municipality]~~ Town of Hillsboro and evidence that those requirements have been met shall be included as part of the submittal to the Critical Area Commission.”

*Section 16.10 Program Changes in the Critical Area*

2. Comprehensive Review.

B. “The Town of Hillsboro shall notify the Commission in writing if it requires a one (1) year extension to the ten year deadline of ~~[insert date]~~ November 5, 2035.”

*Section 17.7 Enforcement in the Critical Area*

9. Appeals.

D. Application for a variance pursuant to a violation constitutes a waiver of the right to appeal any order, requirement, decision or determination related to the violation and its final adjudication including the payment of any penalties and costs assessed.

### Section 3.3 Critical Area Definitions

The following words have the following meanings for the purposes of implementing the Critical Area Program and the Town of Hillsboro Zoning Ordinance, whereby the singular always includes the plural, and vice versa, except where such construction would be unreasonable:

1. "Abatement" means the act of putting an end to a land alteration or development activity or reducing the degree or intensity of the alteration or activity.
2. "Accessory structure" means a structure that is detached from the principal structure, located on the same lot and clearly incidental and subordinate to a principal structure, or if there is no principal structure on the lot, a structure that is customarily incidental and subordinate to a principal structure.
3. "Addition" means newly constructed area that increases the size of a structure.
4. "Afforestation" means the establishment of a tree crop on an area from which it has always or very long been absent, or the planting of open areas, which are not presently in forest cover.

5. Agricultural Best Management Practice.

- a) "Agricultural best management practice" means an agronomic, conservation, or pollution control practice, installation, or structure that manages soil loss, nutrients, animal wastes, or agricultural chemicals so as to minimize their movement into State waters.
- b) "Agricultural best management practice" includes strip cropping, terracing, cover crops, grass waterways, animal waste management, conservation tillage, riparian buffers, nutrient management, and stream protection practices such as fencing, stream crossings, and remote watering devices.
- c) "Agricultural best management practice" does not include a shoreline erosion control measure authorized by the Department of the Environment under COMAR 26.24.04.

~~5-6.~~ "Agriculture" means all methods of production and management of livestock, crops, vegetation, and soil. This includes, but is not limited to, the related activities of tillage, fertilization, pest control, harvesting, and marketing. It also includes, but is not limited to, the activities of feeding, housing, and maintaining of animals such as cattle, dairy cows, sheep, goats, hogs, horses, and poultry and handling their by-products.

~~6-7.~~ "Agricultural easement" means a non-possessory interest in land, which restricts the conversion of use of the land, preventing non-agricultural uses.

~~7-8.~~ "Anadromous fish" means fish that travel upstream (from their primary habitat in the ocean) to freshwater in order to spawn.

~~8-9.~~ "Anadromous fish propagation waters" means those streams that are tributary to the Chesapeake Bay and Atlantic Coastal bays in which the spawning of anadromous species of fish (e.g., rockfish, striped bass, yellow perch, white perch, shad, and river herring) occurs or has occurred. The streams are identified by the Department of Natural Resources.

~~9-10.~~ "Aquaculture" means: (a) Farming or culturing of finfish, shellfish, other aquatic plants or animals or both, in lakes, streams, inlets, estuaries, and other natural or artificial water bodies or impoundments; (b) Activities include hatching, cultivating, planting, feeding, raising, and harvesting of aquatic plants and animals and the maintenance and construction of necessary equipment, buildings, and growing areas; and (c) Cultivation methods include, but are not limited to, seed or larvae development and grow out facilities, fish ponds, shellfish rafts, rack and longlines, seaweed floats and the culture of clams and oysters on tidelands and subtidal areas. For the purpose of this definition, related activities such as wholesale and retail sales, processing and product storage facilities are not considered aquacultural practices.

~~10-11.~~ "Best Management Practices (BMPs)" means conservation practices or systems of practices and management measures that control soil loss and reduce water quality degradation caused by nutrients, animal waste, toxics and sediment. Agricultural BMPs include, but are not limited to, strip cropping, terracing, contour stripping, grass waterways, animal waste structures, ponds, minimal tillage, grass and naturally vegetated filter strips, and proper nutrient application measures.

~~11-12.~~ "Bona fide intrafamily transfer" means a transfer to a member of the owner's immediate family of a portion of the owner's property for the purpose of establishing a residence for that family member.

~~12-13.~~ "Buffer" means area that based on conditions at the time of development is immediately landward from mean high water of tidal waterways, the edge of bank of a tributary stream, or the edge of a tidal wetland; and the area exists in, or is established in, natural vegetation to protect a stream, tidal wetland, tidal waters or terrestrial environments from human disturbance. The Buffer includes an area of at least 100-feet even if that area was previously disturbed by human activity or is currently developed and also include any expansion for contiguous sensitive areas, such as a steep slope, hydric soil, highly erodible soil, nontidal wetland, or a Nontidal Wetland of Special State Concern as defined in the COMAR 26.23.01.01.

~~13.~~ "~~Buffer Management Area (BMA)" means an area officially mapped by the Town of Hillsboro and approved by the Critical Area Commission as a BMA, where it has been sufficiently demonstrated that the existing pattern of residential, industrial, commercial, institutional, or recreational development prevents the Buffer from fulfilling its water quality and habitat functions, and where development in accordance with specific BMA provisions can be permitted in the Buffer without a Variance.~~"

14. "Buffer Management Plan" includes a major buffer management plan, a minor buffer

management plan, and a simplified buffer management plan.

(a) "Buffer Management Plan" means a narrative, graphic description, or plan of the Buffer that is necessary when an applicant proposes a development activity that will:

(i) Affect a portion of the Buffer;

(ii) Alter Buffer vegetation; or

(iii) Require the establishment of a portion of the Buffer in vegetation.

(b) "Buffer Management Plan" includes a major Buffer Management Plan, a minor Buffer Management Plan, or a Simplified Buffer Management Plan as described in this ordinance.

15. "Bufferyard" means an area at least 25 feet wide, located between development activity and tidal waters, tidal wetlands, or a tributary stream, planted with vegetation consisting of native canopy trees, understory trees, shrubs, and perennial herbaceous plants that is used in Buffer Management Areas to provide water quality and habitat benefits. This area is to be managed and maintained in a manner that optimizes these benefits.

16. "Canopy tree" means a tree that when mature commonly reaches a height of at least 35 feet.

17. "Clearcutting" means the removal of the entire stand of trees in one cutting with tree reproduction obtained by natural seeding from adjacent stands or from trees that were cut, from advanced regeneration or stump sprouts, or from planting of seeds or seedlings by man

18. "Climate resiliency" means the capacity of a natural system to maintain function in the face of stresses imposed by climate change. Climate resiliency includes adapting a natural system to be better prepared for future climate impacts including sea level rise, saltwater intrusion, wetland migration, storm surge, precipitation-induced flooding, and other extreme weather events

19. Cluster development means residential development in which dwelling units are concentrated in a selected area or selected areas of the development tract so as to provide natural habitat or other open space uses on the remainder.

20. "Colonial nesting water birds" means herons, egrets, terns, and glossy ibis. For the purposes of nesting, these birds congregate (that is "colonize") in relatively-few areas, at which time, the regional populations of these species are highly susceptible to local disturbances.

21. "COMAR" means the Code of Maryland Regulations, as from time to time amended, including any successor provisions.

22. "Commercial harvesting" means a commercial operation that would alter the existing composition or profile, or both, of a forest, including all commercial cutting operations done by companies and private individuals for economic gain.

23. "Commission" means the Critical Area Commission for the Chesapeake and Atlantic

Coastal Bays.

24. "Community piers" means boat docking facilities associated with subdivisions or similar residential areas, and with condominium, apartment and other multiple family dwelling units. Private piers are excluded from this definition.
25. "Comprehensive or master plan" means a compilation of policy statements, goals, standards, maps and pertinent data relative to the past, present and future trends of the local jurisdiction including, but not limited to, its population, housing, economics, social patterns, land uses, water resources and their use, transportation facilities and public facilities prepared by or for the planning board, agency or office.

26. Conforming.

"Conforming" means a parcel or lot that meets all Critical Area requirements.

"Conforming" does not include a parcel or lot:

For which a Critical Area variance is sought or has been issued; or  
That is located in the Resource Conservation Area and is less than twenty acres.

27. "Conservation easement" means a non-possessory interest in land, which restricts the manner in which the land may be developed in an effort to reserve natural resources for future use.

~~26-28.~~ "Consistent with" means that a standard or factor will further, and not be contrary to, the following items in the comprehensive plan:

- a. Policies;
- b. Timing of the implementation of the plan, of development, and of rezoning;
- c. Development patterns;
- d. Land uses; and
- e. Densities or intensities.

~~27-29.~~ "Consolidation" means a combination of any legal parcel of land or recorded legally buildable lot into fewer lots or parcels than originally existed. An application for consolidation may include a subdivision, lot line abandonment, boundary line adjustment, replatting request, or lot line adjustment.

~~28-30.~~ "Critical Area" means all lands and waters defined in §8-1807 of the Natural Resources Article, Annotated Code of Maryland. They include:

- a) All waters of and lands under the Chesapeake Bay and Atlantic Coastal Bays and their tributaries to the head of tide as indicated on State wetlands maps;
- b) All State and private wetlands designated under Title 16 of the Environment Article, Annotated Code of Maryland;
- c) All land and water areas within 1,000 feet beyond the landward boundaries of State or private wetlands and the heads of tides designated under Title 16 of the Environment

Article, Annotated Code of Maryland; and

- d) Modification to these areas through inclusions or exclusions proposed by local jurisdictions and approved by the Commission as specified in §8-1807 of the Natural Resources Article, Annotated Code of Maryland.

31. "Deduction" means the total number of growth allocation acres that are necessary for approval of a growth allocation project and, after approval by the Commission, are subtracted from the growth allocation reserves of the local jurisdiction in which the project is located

~~29-32.~~ "Density" means the number of dwelling units per acre within a defined and measurable area.

~~30-33.~~ "Developed woodlands" means an area of trees or of trees and natural vegetation that is interspersed with residential, commercial, industrial or recreational development.

~~31-34.~~ "Developer" means a person who undertakes development activity as defined in this Program; or a person who undertakes development activity as defined in the Criteria of the Commission.

35. "Development" means any activity that materially affects the condition or use of dry land, land under water, or any structure. "Development" includes redevelopment.

~~32-36.~~ "Development activities" means the construction or substantial alteration of residential, commercial, industrial, institutional or transportation facilities or structures.

~~33-37.~~ "Disturbance" means an alteration or change to the land. It includes any amount of clearing, grading, or construction activity. Disturbance does not include gardening or maintaining an existing grass lawn.

~~34-38.~~ "Documented breeding bird areas" means forested areas where the occurrence of interior dwelling birds, during the breeding season, has been demonstrated as a result of on-site surveys using standard biological survey techniques.

~~35-39.~~ "Dwelling unit" means a single unit providing complete, independent living facilities for at least one person, including ~~permanent~~ provisions for sanitation, cooking, eating, sleeping, and other activities routinely associated with daily life. Dwelling unit includes a living quarters for a domestic or other employee or tenant, an in-law or accessory apartment, a guest house, or a caretaker residence.

~~36-40.~~ "Ecosystem" means a more or less self-contained biological community together with the physical environment in which the community's organisms occur.

~~41~~—"Endangered species" means any species of fish, wildlife, or plants that have been

designated as endangered by regulation by the Secretary of the Department of Natural Resources. Designation occurs when the continued existence of these species as viable components of the State's resources are determined to be in jeopardy. This includes any species determined to be an "endangered" species pursuant to the Federal Endangered Species Act, 16 U.S.C. §et seq., as amended. [Natural Resources Article, Title 4, Subtitle 2A or Title 10, Subtitle 2A, Annotated Code of Maryland; or COMAR 08.03.08.](#)

42. "Establishment" means the planting or regeneration of native vegetation throughout the Buffer.
43. "Excess stormwater run-off" means all increases in stormwater resulting from:
- a) An increase in the imperviousness or lot coverage of the site, including all additions to buildings, roads, and parking lots;
  - b) Changes in permeability caused by compaction during construction or modifications in contours, including the filling or drainage of small depression areas;
  - c) Alteration of drainageways, or regrading of slopes;
  - d) Destruction of forest; or
  - e) Installation of collection systems to intercept street flows or to replace swales or other drainageways.
- ~~3744~~. "Financial assurance" means a performance bond, letter of credit, cash deposit, insurance policy, or other instrument of security acceptable to the Town of Hillsboro.
- ~~3845~~. "Fisheries activities" means commercial water dependent fisheries facilities including structures for the parking, processing, canning, or freezing of finfish, crustaceans, mollusks, and amphibians and reptiles and also including related activities such as wholesale and retail sales product storage facilities, crab shedding, off-loading docks, shellfish culture operations, and shore-based facilities necessary for aquacultural operations.
- ~~4639~~. "Forest" means a biological community dominated by trees and other woody plants covering a land area of 10,000 square feet or greater. Forest includes areas that have at least 100 trees per acre with at least 50% of those trees having two-inch or greater diameter at 4.5 feet above the ground and forest areas that have been cut, but not cleared. Forest does not include orchards.
- ~~4740~~. "Forest Interior Dwelling Birds" means species of birds, which require relatively large forested tracts in order to breed successfully (for example, various species of flycatchers, warblers, vireos, and woodpeckers).
48. "Forest management" means the protection, manipulation, and utilization of the forest to provide multiple benefits, such as timber harvesting, water transpiration, wildlife habitat,

etc.

49. "Fully Established" means the Buffer contains as much diverse natural vegetation as necessary to support a firm and stable riparian habitat capable of self-sustaining growth and regeneration.
50. "Grandfathered parcel" or "Grandfathered lot" means a parcel of land that was created or a lot created through the subdivision process and recorded as a legally buildable lot prior to December 1, 1985.
51. "Growth allocation" means the number of acres of land in the Critical Area that the Town of Hillsboro may use, or allocate to municipal jurisdictions to use, to create new Intensely Developed Areas and new Limited Development Areas. The Growth Allocation is five percent of the total Resource Conservation Area acreage in the Town of Hillsboro at the time the Critical Area Commission approved the Town of Hillsboro's original Critical Area Program, not including tidal wetlands or land owned by the federal government.

52. "Growth allocation envelope" means all of the proposed components of a growth allocation that are necessary to serve the proposed development, including an individually owned lot, lot coverage, a road, a utility, a stormwater management measure, an on-site sewage disposal measure, an active recreation area, and additional acreage needed to meet the development requirements of the Critical Area criteria.

53. "Habitat Protection Plan" means a plan that provides for the protection and conservation of the species and habitats identified as Habitat Protection Areas in the Critical Area. The plan shall be specific to the site or area where the species or its habitat is located and shall address all aspects of a proposed development activity that may affect the continued presence of the species. These include, but are not limited to, cutting, clearing, alterations of natural hydrology, and increases in lot coverage. In developing the Plan, an applicant shall coordinate with the Department of Natural Resources to ensure that the Plan is adequate to provide for long-term conservation and can be effectively implemented on the specific site.

54. **Habitat Protection Area**

(a) "Habitat protection area" means an area that is designated for protection:

(i) Under Natural Resources Article, §8-1806, Annotated Code of Maryland, regulations adopted under that authority, or a local program; or

(ii) By the Secretary of Natural Resources.

(b) "Habitat protection area" includes:

(i) The Buffer as described in COMAR 27.01.01.01B(8);

(ii) A nontidal wetland as defined in COMAR 26.24.01.02B;

- (iii) A habitat of a threatened species as defined in COMAR 27.01.09.03A;
- (iv) A habitat of an endangered species as defined in COMAR 27.01.09.03A;
- (v) A habitat of a species in need of conservation as defined in COMAR 27.01.09.03A;
- (vi) A plant habitat as defined in COMAR 27.01.09.04A;
- (vii) A wildlife habitat as defined in COMAR 27.01.09.04A; and
- (viii) Anadromous fish propagation waters as defined in COMAR 27.01.09.05A.

55. Hazardous Tree.

- (i) "Hazardous tree" means:
- (ii) A tree with a structural defect, such as a crack, canker, weak branch union, decay, dead wood, root damage, or root disease, that decreases the structural integrity of the tree and which, because of its location, is likely to fall and cause personal injury or property damage, including acceleration of soil erosion; or
- (iii) Based on its location in the landscape, a healthy tree that, with continued normal growth, will damage an existing permanent structure or significantly increase the likelihood of soil erosion.
- (iv) "Hazardous tree" does not include a tree for which the likelihood of personal injury, property damage, or soil erosion can reasonably be eliminated or significantly diminished;
- (v) With routine and proper arboricultural practices, such as regular watering, application of fertilizer or mulch, and pruning; or
- (vi) By relocation of property that is likely to be damaged.

52-56. "Highly erodible soils" means those soils with a slope greater than 15 percent; or those soils with a K value greater than .35 and with slopes greater than 5 percent.

53-57. "Historic waterfowl staging and concentration area" means an area of open water and adjacent marshes where waterfowl gather during migration and throughout the winter season. These areas are historic in the sense that their location is common knowledge and because these areas have been used regularly during recent times.

58. "Hydric soils" means soils that are wet frequently enough to periodically produce anaerobic conditions, thereby influencing the species composition of growth, or both, of plants on those soils.

59. "Hydrophytic vegetation" means those plants cited in "Vascular Plant Species Occurring in Maryland Wetlands" (Dawson, F. et al., 1985), which are described as growing in water or on a substrate that is at least periodically deficient in oxygen as a result of excessive water content (plants typically found in water habitats).

60. "Immediate family" means a father, mother, son, daughter, grandfather, grandmother, grandson, or granddaughter.
61. "In-kind replacement" means the replacement of a structure with another structure that is smaller than or identical to the original structure in footprint area, width, length, and use.
62. "Intensely Developed Area" means an area of at least 20 acres or the entire upland portion of the critical area within a municipal corporation, whichever is less, where: residential, commercial, institutional, or industrial developed land uses predominate; and a relatively small amount of natural habitat occurs. These areas include: an area with a housing density of at least four dwelling units per acre; an area with public water and sewer systems with a housing density of more than three dwelling units per acre.
63. "Intrafamily transfer" means a transfer to a member of the owner's immediate family of a portion of the owner's property for the purpose of establishing a residence for that family member.
- ~~63-64.~~ "Invasive species" means a species that is non-native or alien to the ecosystem under consideration whose introduction causes or is likely to cause economic or environmental harm or harm to human health.
- ~~64-65.~~ "K Value" means the soil erodibility factor in the Universal Soil Loss Equation. It is a quantitative value, that is experimentally determined.
- ~~65-66.~~ "Land clearing" means any activity that removes the vegetative ground cover.
67. "Landward edge" means the limit of a site feature that is farthest away from a tidal water, tidal wetland, or tributary stream
- ~~66-68.~~ "Large shrub" means a shrub that, when mature, reaches a height of at least six feet.
- ~~67-69.~~ "Legally developed" means all physical improvements to a property that existed before Critical Area Commission approval of a local Program, or were properly permitted in accordance with the provisions of the local Program in effect at the time of construction.
70. "Limit of disturbance" means the area of a development or redevelopment activity that includes temporary disturbance and permanent disturbance.
- ~~68-71.~~ "Limited Development Area" means an area: with a housing density ranging from one dwelling unit per five acres up to four dwelling units per acre; with a public water or sewer system; that is not dominated by agricultural land, wetland, forests, barren land, surface water, or open space; or that is less than 20 acres and otherwise qualifies as an intensely developed area under the definition in this Program.
- ~~69-72.~~ "Living shoreline" means a suite of stabilization and erosion control measures that

preserve the natural shoreline and are designed to minimize shoreline erosion, maintain coastal process, and provide aquatic habitat. Measures must include marsh plantings and may include the use of sills, sand containment structures, breakwaters, or other natural components.

~~70.~~~~73.~~ "Local significance" means development of a minor scale, which causes environmental or economic consequences that are largely confined to the immediate area of the parcel of land on which it is located; does not substantially affect the Critical Area Program of the Town of Hillsboro; and is not considered to be major development as defined in this Program.

~~71.~~

74. "Locally significant habitat" means a plant or wildlife habitat that may not be of Statewide significance but, in a local jurisdiction's Critical Area program, is considered to be significant in a local or regional context because the habitat contains a species:

- (a) Uncommonly found or of limited occurrence in that area; or
- (b) With an unusually high concentration in that area.

~~74.~~~~75.~~ "Lot coverage" means the percentage of a total lot or parcel that is: occupied by a structure, accessory structure, parking area, driveway, walkway, or roadway; or covered with a paver, walkway gravel, stone, shell, ~~im~~permeable decking, a paver, permeable pavement, or other any manmade material. Lot coverage includes the ground area covered or occupied by a stairway or impermeable deck, but does not include: a fence or wall that is less than one foot in width that has not been constructed with a footer; a walkway in the Buffer or expanded Buffer, including a stairway, that provides direct access to a community or private pier; a wood mulch pathway; or a permeable deck ~~with gaps to allow water to pass freely.~~

~~75.~~~~76.~~ "Marina" means any facility for the mooring, berthing, storing, or securing of watercraft, but not including community piers and other non-commercial boat docking and storage facilities.

77. "Major Buffer Management Plan" means a type of Buffer Management Plan and all supporting documentation required under this Ordinance.

78. "Major development" means development of a scale that may cause State-wide, regional, or inter-jurisdictional, environmental or economic effects in the Critical Area, or which may cause substantial impacts on the Critical Area Program of a local jurisdiction. This development includes, but is not limited to, airports, powerplants, wastewater treatment plants, highways, regional utility transmission facilities, prisons, hospitals, public housing projects, public beaches, and intensely developed park and recreation facilities.

79. "Mean High Water Line" (MHWL) means the average level of high tides at a given location.

80. Minor Buffer Management Plan” means a type of Buffer Management Plan and all supporting documentation required under this Ordinance

76-81. "Mitigation" means an action taken to compensate for adverse impacts to the environment resulting from development, development activity, or a change in land use or intensity.

80-82. Modified Buffer Area.

(a) "Modified buffer area" means an area of land:

(i) Where a pattern of residential, industrial, commercial, or recreational development existed in the 100-foot Buffer on December 1, 1985 in the Chesapeake Bay Critical Area or on June 1, 2002 in the Atlantic Coastal Bays Critical Area; and

(ii) That, as part of a local program approved by the Commission, is shown on a map maintained on file by the local jurisdiction and is subject to modified development provisions.

(b) "Modified buffer area" includes an area referred to by a local jurisdiction as a buffer exemption area, buffer exempted area, buffer modification area, buffer management area, buffer management overlay, buffer modified area, special buffer management area, special buffer area, or any other similar term that has the same substantive meaning as modified buffer area.

83. "Native plant" means a species that is indigenous to the physiographic area in Maryland where the planting is proposed.

84. “Natural features” means components and processes present in or produced by nature, including, but not limited to, soil types, geology, slopes, vegetation, surface water, drainage patterns, aquifers, recharge areas, climate, flood plains, aquatic life, and wildlife.

81-85. "Natural Heritage Area" means any communities of plants or animals, which are considered to be among the best Statewide examples of their kind, and are designated by regulation by the Secretary of the Department of Natural Resources.

82-86. "Natural regeneration" means the natural establishment of trees and other vegetation with at least 400 free-to-grow seedlings per acre, which are capable of reaching a height of at least 20 feet at maturity.

83-87. "Natural vegetation" means those plant communities that develop in the absence of human activities.

84-88. "Nature-dominated" means a condition where landforms or biological communities, or both, have developed by natural processes in the absence of human activities

85.89. "New development" means that for purposes of implementing specific provisions of this Program, new developments (as opposed to redevelopment) means a development activity that takes place on a property with pre-development imperviousness (in IDA) or lot coverage (LDA and RCA) of less than 15 percent as of December 1, 1985.

86.90. "Non-point source pollution" means pollution generated by diffuse land use activities rather than from an identifiable or discrete facility. It is conveyed to waterways through natural processes, such as rainfall, storm runoff, or groundwater seepage rather than by deliberate discharge. Non-point source pollution is not generally corrected by "end-of-pipe" treatment, but rather by changes in land management practices.

87.91. "Non-tidal wetlands" means those areas regulated under Subtitle 9 of the Environment Article that are inundated or saturated by surface water or groundwater at a frequency and duration sufficient to support, and that under normal circumstances does support, a prevalence of vegetation typically adapted for life in saturated soil conditions, commonly known as hydrophytic vegetation. The determination of whether an area is a nontidal wetland shall be made in accordance with the publication known as the "Federal Manual for Identifying and Delineating Jurisdictional Wetlands," published in 1989 and as may be amended. Nontidal wetlands do not include tidal wetlands regulated under Title 16 of the Environment Article of the Annotated Code of Maryland.

92. Nonwater-dependent project.\*

(a) "Nonwater-dependent project" means a temporary or permanent structure that, by reason of its intrinsic nature, use, or operation, does not require location in, on, or over State or private wetlands.

(b) "Nonwater-dependent project" includes:

(i) A dwelling unit on a pier;

(ii) A restaurant, a shop, an office, or any other commercial building or use on a pier;

(iii) A temporary or permanent roof or covering on a pier;

(iv) A pier used to support a nonwater-dependent use; and

(v) A small-scale renewable energy system on a pier, including:

(aa) A solar energy system and its photovoltaic cells, solar panels, or other necessary equipment;

(bb) A geothermal energy system and its geothermal heat exchanger or other necessary equipment; and

(cc) A wind energy system and its wind turbine, tower, base, or other necessary equipment.

(c) "Non-water dependent project" does not include:

- (i) A fuel pump or other fuel-dispensing equipment on a pier;
- (ii) A sanitary sewage pump or other wastewater removal equipment on a pier; or
- (iii) An office on a pier for managing marina operations, including monitoring vessel traffic, registering vessels, providing docking services, and housing electrical or emergency equipment related to marina operations.

88-93. "Offsets" means structures or actions that compensate for undesirable impacts.

89-94. "Open space" means land and water areas retained in an essentially undeveloped state.

90-95. "Overburdened community" has the meaning stated in §1-701 of the Environment Article.

96. Permanent Disturbance.

(a) "Permanent disturbance" means a material, enduring change in the topography, landscape, or structure that occurs as part of a development or redevelopment activity.

(b) "Permanent disturbance" includes:

- (i) Construction or installation of any material that will result in lot coverage;
- (ii) Construction of a deck;
- (iii) Except under §B(18-2)(b)(iii) of this regulation, grading;
- (iv) Except under §B(18-2)(b)(ii) of this regulation, clearing of a tree, forest, or developed woodland; and
- (v) A septic system in a forest or developed woodland on a lot created before local program approval, if clearing is required.

(c) "Permanent disturbance" does not include a septic system on a lot created before local program approval if the septic system is located in existing grass or clearing is not required

91-97. "Person" means an individual, partnership, corporation, contractor, property owner, or any other person or entity.

92-98. "Physiographic features" means the soils, topography, land slope and aspect, and local climate that influence the form and species composition of plant communities.

93-99. "Pier" means any pier, wharf, dock, walkway, bulkhead, breakwater, piles or other similar structure. Pier does not include any structure on pilings or stilts that was originally constructed beyond the landward boundaries of State or private wetlands.

77-100. "Plant habitat" means a community of plants commonly identifiable by the

**Formatted:** Indent: Left: 1.21", Hanging: 0.36",

 Start at: 78 + Alignment: Left + Aligned at: 1.55" +  
 Indent at: 1.91"

composition of its vegetation and its physiographic characteristics.

~~78~~101. "Port" means a facility or area established or designated by the State or local jurisdictions for purposes of waterborne commerce.

~~79~~102. "Principal structure" means the primary or predominant structure on any lot or parcel. For residential parcels or lots, the principal structure is the primary dwelling.

~~80~~103. "Program amendment" means any change or proposed change to an adopted program that is not determined by the Chairman of the Critical Area Commission to be a Program refinement.

~~81~~104. "Program refinement" means any change or proposed change to an adopted program that the Chairman of the Critical Area Commission determines will result in a use of land or water in the Chesapeake Bay Critical Area or Atlantic Coastal Bays Critical Area in a manner consistent with the adopted Program, or that will not significantly affect the use of land or water in the Critical Area. Program refinement may include:

- a. A change to an adopted Program that results from State law;
- b. A change to an adopted Program that affects local processes and procedures;
- c. A change to a local ordinance or code that clarifies an existing provision; and
- d. A minor change to an element of an adopted Program that is clearly consistent with the provisions of State Critical Area law and all the Criteria of the Commission.

~~82~~105. "Project approvals" means the approval of development, other than development by the State or local government, in the Chesapeake Bay Critical Area by the appropriate local approval authority. The term includes approval of preliminary and final subdivision plats and site plans; inclusion of areas within floating zones; issuance of Variances, Special Exceptions, and Conditional Use Permits; and issuance of Zoning Permits. The term does not include building permits.

~~83~~106. "Property owner" means a person holding title to a property or two or more persons holding title to a property under any form of joint ownership.

~~84~~107. "Public water-oriented recreation" means shore-dependent recreation facilities or activities provided by public agencies that are available to the general public.

~~85~~108. "Reclamation" means the reasonable rehabilitation of disturbed land for useful purposes, and the protection of the natural resources of adjacent areas, including waterbodies.

~~86~~. "Reconfiguration" means a change of the configuration of an existing lot or parcel line of

**Formatted:** Indent: Left: 1.2", Hanging: 0.36", Numbered + Level: 1 + Numbering Style: 1, 2, 3, ... + Start at: 78 + Alignment: Left + Aligned at: 1.55" + Indent at: 1.91"

**Formatted:** Indent: Left: 1.2", Hanging: 0.36", Numbered + Level: 1 + Numbering Style: 1, 2, 3, ... + Start at: 78 + Alignment: Left + Aligned at: 1.55" + Indent at: 1.91"

**Formatted:** Indent: Left: 1.2", Hanging: 0.36", Numbered + Level: 1 + Numbering Style: 1, 2, 3, ... + Start at: 78 + Alignment: Left + Aligned at: 1.55" + Indent at: 1.91"

any legal parcel of land or recorded legally buildable lot. An application for reconfiguration may include a subdivision, a lot line adjustment, a boundary line adjustment, a replatting request, or a revision of acreage to increase density.

~~49-109.~~ 108 "Redevelopment" means the process of developing land, which is or has been developed. For purposes of implementing specific provisions of this Program, redevelopment (as opposed to new development) means a development activity that takes place on property with pre-development imperviousness (in IDA) or lot coverage (in LDA and RCA) of 15 percent or greater.

109. "Reforestation" means the establishment of a forest through artificial reproduction or natural regeneration.

110. "Resource Conservation Area" means an area that is characterized by nature dominated environments, such as wetlands, surface water, forests, and open space; and resource-based activities, such as agriculture, forestry, fisheries, or aquaculture. Resource conservation areas include areas with a housing density of less than one dwelling per five acres.

111. "Resource utilization activities" means any and all activities associated with the utilization of natural resources such as agriculture, forestry, surface mining, aquaculture, and fisheries activities.

112. "Restoration" means the act of returning a site or area to an original state or any action that reestablishes all or a portion of the ecological structure and functions of a site or area.

113. "Riparian habitat" means a habitat that is strongly influenced by water and which occurs adjacent to streams, shorelines, and wetlands.

114. "Road" means a public thoroughfare that is strongly influenced by water and which occurs adjacent to streams, shorelines, and wetlands.

~~114-115.~~ "Selection" means the removal of single, scattered, mature trees or other trees from uneven-aged stands by frequent and periodic cutting operations

~~115-116.~~ "Shore erosion protection works" means those structures or measures constructed or installed to prevent or minimize erosion of the shoreline in the Critical Area.

~~1176.~~ "Significantly eroding areas" means areas that erode two feet or more per year.

118. "Simplified Buffer Management Plan" means a type of Buffer Management Plan and all supporting documentation required under this Ordinance.

119. "Small shrub" means a shrub that, when mature, reaches a height no greater than six feet.

120. "Soil conservation and water quality plan" means an agricultural plan approved by a local soil conservation district to minimize soil erosion and the movement of sediment, animal waste, nutrients, or agricultural chemicals into waters of the State.

121. "Species in need of conservation" means those fish and wildlife whose continued existence as part of the State's resources are in question and which may be designated by regulation by the Secretary of Natural Resources as in need of conservation pursuant to the requirements of COMAR 08.03.08, Natural Resources Article §§ 10-2A-06 and 4-2A-03, Annotated Code of Maryland.

122. "Steep slopes" means slopes of 15 percent or greater incline.

123. "Structure" means building or construction materials, or a combination of those materials, that are purposefully assembled or joined together on or over land or water. Structure includes a temporary or permanent fixed or floating pier, piling, deck, walkway, dwelling, building, boathouse, platform, gazebo, or shelter for the purpose of marine access, navigation, working, eating, sleeping, or recreating.

124. "Substantial alteration" means any repair, reconstruction, or improvement of a principal structure, where the proposed footprint equals or exceeds 50 percent of the existing principal structure.

125. ———"Supplemental planting plan" means a description and landscape schedule that shows the proposed species type, quantity, and size of plants to be located within a buffer if natural regeneration does not meet the required stem density.

126. Temporary Disturbance.

(a) "Temporary disturbance" means a short-term change in the landscape that occurs as part of a development or redevelopment activity.

(b) "Temporary disturbance" includes:

(i) Storage of materials that are necessary for the completion of the development or redevelopment activity;

(ii) Construction of a road or other pathway that is necessary for access to the site of the development or redevelopment activity, if the road or pathway is removed immediately after completion of the development or redevelopment activity and the area is restored to its previous vegetative condition;

(iii) Grading of a development site, if the area is restored to its previous vegetative condition immediately after completion of the development or redevelopment activity;  
and

(iv) Locating a septic system on a lot created before local program approval if the septic system is located in existing grass or clearing is not required.

(c) "Temporary disturbance" does not include:

(i) A septic system in a forest or developed woodland on a lot created before local program approval, if clearing is required; and

(ii) A violation.

~~125,127.~~ "Thinning" means a forest practice used to accelerate tree growth of quality trees in the shortest interval of time.

128. "Threatened species" means any species of fish, wildlife, or plants designated as such by regulation by the Secretary of the Department of Natural Resources that appear likely, within the foreseeable future, to become endangered, including any species of wildlife plant determined to be a "threatened" species pursuant to the federal Endangered Species Act, 16 U.S.C. § 1431 et seq., as amended.

129. "Topography" means the existing configuration of the earth's surface including the relative relief, elevation, and position of land features.

130. "Transitional habitat" means a plant community whose species are adapted to the diverse and varying environmental conditions that occur along the boundary that separates aquatic and terrestrial areas.

131. "Transportation facilities" means anything that is built, installed, or established to provide a means of transport from one place to another.

132. ——— "Tree" means a large, woody plant having 1 or several self-supporting stems or trunks and numerous branches that reach a height of at least 20 feet at maturity.

~~132,133.~~ "Tributary stream" means a perennial stream or intermittent stream within the Critical Area that has been identified by site inspection or in accordance with local program procedures approved by the Critical Area Commission.

"Underserved community" has the meaning stated in §1-701 of the Environment Article.

134. (8) "Underserved community" means any census tract in which, according to the most recent U.S. Census Bureau Survey:

(i) At least 25% of the residents qualify as low-income;

(ii) At least 50% of the residents identify as nonwhite; or

(iii) At least 15% of the residents have limited English proficiency

135. "Understory" means the layer of forest vegetation typically located underneath the forest canopy.

~~133,135.~~ "Understory tree" means a tree that, when mature, reaches a height between 12 and 35 feet.

~~134,136.~~ "Unwarranted hardship" means that without a Variance, an applicant would be denied reasonable and significant use of the entire parcel or lot for which the Variance is requested."

~~135,137.~~ "Upland boundary" means the landward edge of a tidal wetland or nontidal wetland.

~~136,138.~~ "Utility transmission facilities" means fixed structures that convey or distribute resources, wastes, or both, including but not limited to electrical lines, water conduits and sewer lines.

139. "Vessel" means every description of watercraft, including an ice boat but not including a seaplane, that it used or capable of being used as a means of transportation on water or ice. Vessel includes the motor, spars, sails, and accessories of a vessel.

~~137,140.~~ "Water-based aquaculture" means the raising of fish and shellfish in any natural, open, free-flowing water body.

~~138,141.~~ "Water-dependent facilities" means those structures or works associated with industrial, maritime, recreational, educational, or fisheries activities that require location at or near the shoreline within the Buffer. An activity is water-dependent if it cannot exist outside the Buffer and is dependent on the water by reason of the intrinsic nature of its operation. Such activities include, but are not limited to, ports, the intake and outfall structures of power plants, water-use industries, marinas and other boat docking structures, public beaches and other public water-oriented recreation areas, and fisheries activities.

~~139,142.~~ "Water-use industry" means an industry that requires location near the shoreline because it utilizes surface waters for cooling or other internal purposes.

~~140,143.~~ "Waterfowl" means birds that frequent and often swim in water, nest and raise their young near water, and derive at least part of their food from aquatic plants and animals.

144. Waterfowl staging and concentration area" means an area of open water and adjacent marshes where, as documented by the Department of Natural Resources, waterfowl gather during migration and throughout the winter season.

~~141,145.~~ "Wildlife corridor" means a strip of land having vegetation that provides habitat and safe passage for wildlife.

~~142,146.~~ "Wildlife habitat" means those plant communities and physiographic features that provide food, water, cover, and nesting areas, as well as foraging and feeding conditions necessary to maintain populations of animals in the Critical Area.

## ARTICLE 7

### CRITICAL AREA OVERLAY DISTRICT REGULATIONS

#### Section 7.1 Implementation of the Critical Area Program - Purpose and Goals

1. The Town of Hillsboro Critical Area Program. The Town of Hillsboro Critical Area Program consists of Articles contained in this Zoning Ordinance and includes the Official Critical Area Map for Hillsboro. See Articles 7, 8, 12, 14, 16 and 17 for provisions relative to the Town of Hillsboro's Critical Area Program. Related provisions also may be found in the Town of Hillsboro Subdivision Regulations.  
  
[A. Notwithstanding any provision in this ordinance, or the lack of a provision in this ordinance, all of the requirements of Natural Resources Article 8-1801 through 8-1817 and COMAR Title 27 shall apply to, and be applied by, Hillsboro as minimum standards.](#)  
  
[B. In the case of conflicting provisions, the stronger provision applies.](#)
2. Goals. The goals of the Town of Hillsboro Critical Area Program are to accomplish the following:
  - A. Minimize adverse impacts on water quality that result from pollutants that are discharged from structures or run off from surrounding lands;
  - B. Conserve fish, wildlife, and plant habitat; and
  - C. Establish land use policies for development in the Critical Area, which accommodate growth as well as address the environmental impacts that the number, movement, and activities of people may have on the area.
  - [D. Reduce vulnerability to the impacts of climate change and incorporate measures to improve the climate resiliency of the Chesapeake and Atlantic Coastal Bays and its tributaries; and](#)
  - [E. Ensure an equitable distribution of the burdens and benefits of development, mitigation, restoration, conservation and adaptation to climate change with the Critical Area.](#)
3. Regulated Activities and Applicability. Any applicant for a permit or license to pursue activities within the Critical Area, including but not limited to, development or redevelopment, grading, sediment and erosion control, timber harvesting, shoreline erosion control, installation of a septic system and drain field, operation of a waste collection or disposal facility, operation of a commercial or private marina or other water-related commercial or industrial operation (whether public or private), mining (whether surface or sub-surface) or quarrying, farming or other agriculture-related activities shall have such permits or licenses issued by the Town after review to determine compliance with this Ordinance. [The Town's Critical Area Program and all applicable provisions of this Ordinance shall be implemented and enforced by the Town \[Zoning Administrator\].](#)
  - (A) [The \[Zoning Administrator\] shall review a permit, license, or other authorization for a development or redevelopment activity in the Critical Area for compliance with this](#)

Critical Area Ordinance prior to issuance of that permit or license.

(B) Should an infraction of the provisions contained in any law, regulation, or plan related to the Town's Critical Area Program be brought to the attention of any Town official, said official shall contact the [Code Enforcement Officer].

4. Critical Area Overlay District Map.

- A. The Official Critical Area Overlay District Map is maintained in force as part of the Official Zoning Map for the Town of Hillsboro. The Official Critical Area Map delineates the extent of the Critical Area Overlay District that shall include:
- 1) All waters of and lands under the Chesapeake Bay and its tributaries to the head of tide ~~as indicated on the State wetland maps~~ and all state and private wetlands designated under Title 16 of the Environment Article of the Annotated Code of Maryland; and
  - 2) All land and water areas within 1,000 feet beyond the landward boundaries of state or private wetlands and the heads of tides designated under Title 16 of the Environment Article of the Annotated Code of Maryland.
- B. Within the designated Critical Area Overlay District, all land shall be assigned one of the following land management and development area classifications, based on land uses and development in existence on December 1, 1985 :
- 1) Intensely Developed Area (IDA).
  - 2) Limited Development Area (LDA).
  - 3) Resource Conservation Area (RCA).
- C. The Critical Area Overlay District Map may be amended by the Town Commissioners in compliance with the amendment provisions contained in Article 16, the Maryland Critical Area Law, the Critical Area Criteria and Critical Area Regulations.

5. Notification of project approval

The Town of Hillsboro shall send copies of applications for all developments, subdivisions, and site plans wholly or partially within the Critical Area as specified in COMAR 27.03.01.04 to the Critical Area Commission for review and comment. The Town of Hillsboro may not process an application, which has been sent to the Commission for notification until it has received notice of receipt by the Commission or the close of the fifth business day, whichever comes first. Any action by the Town of Hillsboro in violation of these procedures shall be void.

~~5-6.~~ General Requirements in all Critical Area Overlay Zones.

- A. Development and redevelopment shall be subject to the Habitat Protection Area requirements prescribed in this Article.

B. Development and redevelopment shall be subject to the water-dependent facilities requirements of Part 6 of this Ordinance;

C. The Town shall maintain areas of public access to the shoreline, and, if possible, encourage the establishment of additional areas of shoreline access for public use, such as foot paths, scenic drives, and other public recreational facilities.

(D) Development shall comply with the following complementary State statutes and regulations, including:

(1) For soil erosion and sediment control, management measures shall be consistent with the requirements of Environment Article, §§4-101—4-116, Annotated Code of Maryland, and COMAR 26.17.01;

(2) For stormwater runoff, stormwater management measures shall be consistent with the requirements of Environment Article, §§4-201—4-215, Annotated Code of Maryland, and COMAR 26.17.02;

(3) For shore erosion, shoreline stabilization measures shall be consistent with the requirements of Environment Article, Title 16, Annotated Code of Maryland, and COMAR 26.24.04; and

(4) Any other applicable State statute or regulation.

(E) A development activity or facility may not be authorized in the Critical Area if, by its intrinsic nature, the activity or facility has the potential to cause an adverse effect on water quality, wildlife, or fish habitat or plant habitat, unless:

(1) For an activity or facility such as nonmaritime heavy industry: \_\_\_\_\_

(a) It is located within an intensely developed area;

(b) It fully complies with all requirements under Part 6 of this Ordinance of this chapter; and

(c) The owner or operator of the activity or facility demonstrates to all applicable State and local agencies that there will be a net improvement in water quality to the adjacent body of water; or

(2) For an activity or facility such as a sanitary landfill or a solid or hazardous waste collection or disposal facility:

(a) There is no environmentally acceptable alternative outside the Critical Area; and

(b) The activity or facility is necessary in order to correct a water quality or wastewater management problem.

(F) A transportation facility or a utility transmission facility or activity may not be authorized in the Critical Area, unless it is:

- (1) A facility that serves a use identified under this Critical Area program;
  - (2) A linear regional or interstate transportation facility that must cross tidal waters;  
or
  - (3) A linear regional or interstate utility transmission facility that must cross tidal waters.
- (G) A permanent sludge handling, storage, or disposal activity or facility may not be authorized in the Critical Area, unless:
- (1) The activity or facility is associated with a wastewater treatment facility; or
  - (2) In accordance with an approved nutrient management plan under Agriculture Article, Title 8, Subtitle 8, Annotated Code of Maryland, and COMAR 15.20.04 and COMAR 15.20.06 -- .08, sludge is applied on agricultural land that is not in the buffer.
- (H) Roads, bridges, and utilities are prohibited in a Habitat Protection Area unless no feasible alternative exists. If a road, bridge or utility is authorized the design, construction and maintenance shall:
- (1) Provide maximum erosion protection;
  - (2) Minimize negative impacts on wildlife, aquatic life and their habitats; and
  - (3) Maintain hydrologic processes and water quality.
- (I) Development activities that cross or affect a stream are prohibited unless there is no feasible alternative. All development activities that must cross or affect streams shall be designed to:
- (1) Reduce increases in flood frequency and severity that are attributable to development;
  - (2) Retain tree canopy so as to maintain stream water temperature within normal variation;
  - (3) Provide a natural substrate for stream beds; and
  - (4) Minimize adverse water quality and quantity impacts of stormwater.
- (J) Reasonable accommodations for the needs of disabled citizens.
- 1) An applicant seeking relief from the Critical Area standards contained in this Ordinance in order to accommodate the reasonable needs of disabled citizens shall have the burden of demonstrating by preponderance of evidence the following:
    - a) The alterations will benefit persons with a disability within the meaning of the Americans With Disabilities Act;

- b) Literal enforcement of the provisions of this Article would result in discrimination by virtue of such disability or deprive a disabled resident or user of the reasonable use and enjoyment of the property;
  - c) A reasonable accommodation would reduce or eliminate the discriminatory effect of the provisions of this Article or restore the disabled resident's or user's reasonable use or enjoyment of the property;
  - d) The accommodation requested will not substantially impair the purpose, intent, or effect, of the provisions of this Ordinance as applied to the property; and
  - e) The accommodation would be environmentally neutral with no greater negative impact on the environment than the literal enforcement of the statute, ordinance, regulation, or other requirement; or would allow only the minimum environmental changes necessary to address the needs resulting from the particular disability of the applicant/appellant.
- 2) The Board of Zoning Appeals shall determine the nature and scope of any accommodation under this Section and may award different or other relief than requested after giving due regard to the purpose, intent, or effect of the applicable provisions of this Ordinance. The Board also may consider the size, location, and type of accommodation proposed and whether alternatives exist, which accommodate the need with less adverse effect.
  - 3) The Board of Zoning Appeals may require, as a condition of approval, that upon termination of the need for accommodation, that the property be restored to comply with all applicable provisions of this Ordinance. Appropriate bonds may be collected or liens placed in order to ensure the Town's ability to restore the property should the applicant fail to do so.

(K) Non-Water Dependent Structures on Piers

- (1) Except as provided in paragraphs (2) and (3) of this subsection and notwithstanding any other provisions of the law, Town of Hillsboro may not issue a building permit or any other approval to authorize a non-water dependent project located on State or private wetlands within the Critical Area.
- (2) Town of Hillsboro may issue a building permit or any other approval to authorize a non-water dependent project located on State or private wetlands within the Critical Area if the project:
  - (a) Involves a commercial activity that is permitted as a secondary or accessory use to a permitted primary commercial use;
  - (b) Is not located on a pier that is attached to residentially, institutionally, or industrially used property;

**Commented [MG1]:** This is an opt-in Section. A local jurisdiction may choose to adopt the commercial structures on piers language, the renewable energy structures on piers language, or both, or neither. Additionally, Part 2(A)(8) may be relocated to the Supplemental Use Standards as provided in Attachment A.

**Commented [SHCCTL2R1]:** We do not choose to opt in

**Commented [SHCCTL3R1]:**

(c) Is located in:

(i) An Intensely Developed Area (IDA); or

(ii) An area that has been excluded from a local Critical Area program if the exclusion has been adopted or approved by the Critical Area Commission for the Chesapeake and Atlantic Coastal Bays;

(3) Is approved by the Planning Commission and the Zoning Board after [Date of NWD opt-in];

(4) Allows or enhances public access to State wetlands;

(5) Does not expand beyond the length, width, or channelward encroachment of the pier on which the project is constructed;

(6) Has a height of up to 18 feet unless the project is located at a marina; and

(7) Is up to 1,000 square feet in total area; or

(a) Is located on a pier that was in existence on or before December 31, 2012;

(b) Satisfies all of the requirements under Section (2)(a)-(g) of this paragraph; and

(c) If applicable, has a temporary or permanent roof structure or covering that is up to 1,000 square feet in total area.

(8) Town of Hillsboro may issue a building permit or other approval to authorize a non-water dependent project for a small-scale renewable energy system on a pier located on State or private wetlands within the Critical Area if the project:

(a) Involves the installation or placement of a small-scale renewable energy system that is permitted as a secondary or accessory use on a pier that is authorized under Title 16 of the Environment Article;

(b) Is approved by the Town of Hillsboro's Planning Commission and Zoning Board<sup>1</sup> after [Date of NWD opt-in];

(c) A building permit or other approval may include the installation or placement of:

(i) A solar energy system attached to a pier of the device or equipment associated with that system does not extend more than:

A. Four (4) feet above or 18 inches below the deck of the pier;

or

B. One (1) foot beyond the length or width of the pier;

(d) A solar energy system attached to a piling if there is only one solar panel per

boat slip;

(e) A solar energy system attached to a boathouse roof if the device or equipment associated with that system does not extend beyond the length, width, or height of the boathouse roof;

(f) A closed-loop geothermal heat exchanger under a pier if the geothermal heat exchanger or any associated devices or equipment do not:

i. Extend beyond the length, width, or channelward encroachment of the pier;

ii. Deleteriously alter longshore drift; or

iii. Cause significant individual or cumulative thermal impacts to aquatic resources; or

(g) A wind energy system attached to a pier if there is only one wind energy system per pier for which:

i. The height from the deck of the pier to the blade extended at its highest point is up to 12 feet;

ii. The rotor diameter of the wind turbine is up to four (4) feet; and

iii. The setbacks of the wind energy system from the nearest property line and from the channelward edge of the pier to which that system is attached are at least 1.5 times the total height of the system from its base to the blade extended at its highest point.

(L) Shore Erosion Protection.

Commented [MG4]: Revise based on new SEC forms?

1. All shore erosion control activities or projects shall meet the requirements of COMAR 26.24.02 and COMAR 26.24.04.

2. The Town of Hillsboro shall require any authorized shore erosion control project to submit a Buffer Management Plan.

3. The Buffer Management Plan shall meet the requirements of Part 3 of this Ordinance and COMAR 27.01.09.

4. A copy of the approved Buffer Management Plan shall be forwarded to the Critical Area Commission.

## Section 7.2 Intensely Developed Areas

1. Development standards. For all development activities in the Intensely Developed Areas, the applicant shall identify any environmental or natural feature described below and meet all of the following standards:

~~A. Development activities shall be designed and implemented to minimize the destruction~~

of forest and woodland vegetation;

~~B. All roads, bridges, and utilities are prohibited in a Habitat Protection Area, unless no feasible alternative exists. If a road, bridge or utility is authorized the design, construction, and maintenance shall:~~

- ~~1) Provide maximum erosion protection;~~
- ~~2) Minimize negative impact on wildlife, aquatic life, and their habitats; and~~
- ~~3) Maintain hydrologic process and water quality.~~

~~C. All development activities that must cross or affect streams shall be designed to:~~

- ~~1) Reduce increases in flood frequency and severity that are attributable to development;~~
- ~~2) Retain tree canopy so as to maintain stream water temperature within normal variation;~~
- ~~3) Provide a natural substrate for stream beds; and~~
- ~~4) Minimize adverse water quality and quantity impacts of stormwater.~~

A. Intensely Developed Areas (IDA) include areas where residential, commercial, institutional, and/or industrial development uses predominate and where relatively little natural habitat occurs. At the time of the initial mapping, these areas shall have had at least one of the following features:

1. Housing density equal to or greater than four dwelling units per acre;
2. Industrial, institutional, or commercial uses are concentrated in the area; or
3. Public sewer and water collection and distribution systems are currently serving the area and housing density is greater than three dwelling units per acre;

(B) In addition, IDAs shall be located in an area of at least 20 adjacent acres unless it is the entirety of the upland area of the Town or it is a growth allocation that is consistent with the growth allocation provisions of this Ordinance.

(C) Land use activities within the IDA will be managed in accordance with the land use policies of COMAR 27.01.02.03;

(D) Hillsboro shall develop a strategy to reduce the impacts on water quality generated by existing development. This shall include an assessment of water quality and impacts to biological resources prompted by community redevelopment plans and programs and may further include a public education program, the implementation of urban best management practices, and the use of such techniques as urban forestry programs, street tree plantings, gardens, and open land buffer plantings;

Formatted: Indent: Left: 1.5"

Formatted: Indent: Left: 1.5"

(E) Development activities shall be designed and implemented to minimize destruction of forest and woodland vegetation; and

(F) All development and redevelopment activities shall include stormwater management technologies that reduce pollutant loadings by at least 10 percent below the level of pollution on the site prior to development or redevelopment as provided in the *Critical Area 10% Rule Guidance Manual - Fall 2003* and as may be subsequently amended.

Formatted: Normal1, Left, Indent: Left: 1.5", Hanging: 0.5", Right: 0", Space Before: 0 pt, Line spacing: single, Tab stops: Not at 1.82"

Formatted: Font: 12 pt

### Section 7.3 Limited Development Areas

1. Development standards. For all development activities in the Limited Development Areas, the applicant shall identify any environmental or natural feature described below, and shall meet all of the following standards:

A. Development and redevelopment shall be subject to the water dependent facilities requirements of this Article;

B. Roads, bridges, and utilities are prohibited in a Habitat Protection Area unless no feasible alternative exists. If a road, bridge or utility is authorized the design, construction and maintenance shall:

- 1) Provide maximum erosion protection;
- 2) Minimize negative impacts on wildlife, aquatic life and their habitats; and
- 3) Maintain hydrologic processes and water quality.

C. All development activities that must cross or affect streams shall be designed to:

- 1) Reduce increases in flood frequency and severity that are attributable to development;
- 2) Retain tree canopy so as to maintain stream water temperature within normal variation;
- 3) Provide a natural substrate for stream beds; and
- 4) Minimize adverse water quality and quantity impacts of stormwater.

A. Limited Development Areas (LDA) are those areas that are currently developed in low or moderate intensity uses. They also contain areas of natural plant and animal habitats. The quality of runoff from these areas has not been substantially altered or impaired. At the time of the initial mapping, these areas shall have had at least one of the following features:

Formatted: Indent: Left: 1.5", Hanging: 0.19"

(1) Housing density ranging from one dwelling unit per five acres up to four dwelling units per acre;

Formatted: Indent: Left: 1.69", Hanging: 0.31"

(2) Areas not dominated by agricultural, wetland, forest, barren land, open water, or open space;

Formatted: Indent: Left: 1.69", Hanging: 0.31"

(3) Areas meeting the conditions of Intensely Developed Area but compromising less than 20 acres; or

Formatted: Indent: Left: 1.69", Hanging: 0.31"

(4) Areas having public sewer or public water, or both.

B. Land use activities within the LDA will be managed in accordance with the land use policies of COMAR 27.01.02.04.

Formatted: Indent: Left: 1.5", Hanging: 0.19"

C. If there is a wildlife corridor system identified by the Wildlife Heritage Service on or near the site, which can be enhanced by additional plantings, the applicant shall incorporate a wildlife corridor system that connects the largest undeveloped or most vegetative tracts of land within and adjacent to the site in order to provide continuity of existing wildlife and plant habitats with offsite habitats. The wildlife corridor system may include Habitat Protection Areas identified in this Ordinance. The Town of Hillsboro shall ensure the maintenance of the wildlife corridors by requiring the establishment of conservation easements, restrictive covenants, or similar instruments approved by the Town through which the corridor is preserved by public or private groups, including homeowners associations, nature trusts and other organizations.

Formatted: Indent: Left: 1.5", Hanging: 0.19"

D. Development on slopes 15 percent or greater, as measured before development, shall be prohibited unless the project is the only effective way to maintain or improve the stability of the slope and is consistent with the policies and standards for Limited Development Areas.

Formatted: Indent: Left: 1.5", Hanging: 0.19", Tab stops: Not at 1.81"

E. Except as otherwise provided in this subsection, lot coverage (see definition) is limited to 15% of a lot or parcel or any portions of a lot or parcel that are designated LOA.

Formatted: Indent: Left: 1.5", Hanging: 0.19"

(1) If a parcel or lot of one-half acre or less in size existed on or before December 1, 1985, then lot coverage is limited to twenty-five (25%) of the parcel or lot.

(2) If a parcel or lot greater than one-half acre and less than one acre in size existed on or before December 1, 1985, then lot coverage is limited to fifteen percent (15%) of the parcel or lot.

Formatted: Font: 11.5 pt, Font color: Custom Color( RGB(31,31,31) )

Formatted: Font: 11.5 pt

Formatted: Normal, No bullets or numbering

(3) If an individual lot one acre or less in size is part of a subdivision approved after December 1, 1985, then lot coverage may exceed fifteen percent (15%) of the individual lot; however the total lot coverage for the entire subdivision may not exceed fifteen percent (15%).

4) Lot coverage limits provided in 1) and b) above may be exceeded, upon findings by the Planning Commission or its designee that the following conditions exist:

(a) The lot or parcel is legally nonconforming. A lot or parcel legally

developed as of July 1, 2008 may be considered legally nonconforming for the purposes of lot coverage requirements.

- (b) Lot coverage associated with new development activities on the property have been minimized;
- © – For a lot or parcel one-half acre or less in size, total lot coverage does not exceed the lot coverage limits in 1) above by more than twenty-five percent (25%) or five hundred square feet (500 square feet), whichever is greater;
- (d) For a lot or parcel greater than one-half acre and less than one acre in size, total lot coverage does not exceed the lot coverage limits in 2) above or five thousand, four hundred and forty-five (5,445) square feet, whichever is greater;
- ⚡ (e) The following table summarizes the limits set forth above:

Lot Coverage Limits	
Lot/Parcel Size (Square Feet)	Lot Coverage Limit
0-8,000	25% of parcel + 500 SF
8,001 - 21,780	31.25% of parcel
21,780 - 36,300	5,445 SF
36,301 - 43,560	15% of parcel

Formatted: Indent: Left: 0"

5) If the Planning Commission or its designee makes the findings set forth in subsection 4) above and authorizes an applicant to use the lot coverage limits set forth in that paragraph, the applicant shall:

(a) Demonstrate that water quality impacts associated with runoff from the development activities that contribute to lot coverage have been minimized through site design considerations or the use of Best Management Practices to improve water quality; and

(b) Provide on-site mitigation in the form of plantings to offset potential adverse water quality impacts from the development activities resulting in new lot coverage. The plantings shall be equal to two times the area of the development activity.

(c) If the applicant cannot provide appropriate stormwater treatment and plantings due to site constraints, then the applicant shall pay a fee to the Town of Hillsboro in lieu of performing the on-site mitigation. The amount of the fee shall be \$1.50 per square foot of the required mitigation.

(6) For the purposes of calculating limitations on lot coverage, is as follows:

(a) When a site is mapped entirely as LDA, lot coverage is based on the entire site area; and

(b) When a portion of a lot or parcel is mapped as LDA, lot coverage is based on the area of the LDA.

(7) The Planning Commission may allow an applicant to exceed the limits established in §(4) above by 500 square feet for development that uses the following pervious materials:

(a) Permeable pavers; or

(b) Pervious concrete.

F. The alteration of forest and developed woodlands shall be restricted and shall be mitigated as follows:

(1) The total acreage in forest and developed woodlands within the Critical Area shall be maintained or preferably increased;

(2) All forests and developed woodlands that are allowed to be cleared or developed shall be replaced in the Critical Area on not less than an equal area basis;

Formatted: Indent: Left: 1.56", First line: 0"

Formatted: Indent: Left: 1.38", First line: 0"

(3) If an applicant is authorized to clear more than 20 percent of a forest or developed woodlands on a lot or parcel, the applicant shall replace the forest or developed woodlands at 1.5 times the areal extent of the forest or developed woodlands cleared, including the first 20 percent of the forest or developed woodlands cleared.

(4) An applicant may not clear more than 30 percent of a forest or developed woodlands on a lot or parcel, unless the Board of Zoning Appeals grants a Variance and the applicant replaces forest or developed woodlands at a rate of 3 times the areal extent of the forest or developed woodlands cleared.

(5) If an applicant is authorized to clear any percentage of forest or developed woodland the remaining percentage shall be maintained through recorded, restrictive covenants or similar instruments approved by the Town. The following are required for forest or developed woodland clearing as required in §FG above:

(a) The applicant shall ensure that any plantings that die within twenty-four (24) months of installation shall be replaced. A performance bond in an amount determined by the Town of Hillsboro shall be posted to assure satisfactory replacement as required in §G above and plant survival;

No clearing is allowed until the Town has issued a permit. Forests or developed woodlands that are cleared before obtaining a permit is a violation;

(b) Clearing of forest or developed woodlands that exceed the maximum area allowed in §F above or prior to the issuance of a permit shall be replanted at three times the areal extent of the cleared forest; and

(c) If the areal extent of the site limits the application of the reforestation standards in this section the applicant may be allowed to plant offsite or pay a fee in lieu of planting.

I. If no forest is established on proposed development sites, these sites shall be planted to provide a forest or developed woodland cover of at least 15 percent.

1) The applicant shall designate, subject to Town approval, a new forest area on a part of the site not forested; and

2) The afforested area shall be maintained as forest cover through easements, restrictive covenants or other protective instruments approved by the Town.

(3) New, expanded or redeveloped industrial facilities may only be permitted in Limited Development Areas (LDA) if such a use is permitted in the underlying zoning district and provided such facilities meet all requirements for development in the LDA

Formatted: Indent: Hanging: 0.37", Tab stops: Not at 2.18"

**Section 7.4 Resource Conservation Areas**

A. RCA's are those areas characterized by nature dominated environments (wetlands, forests, abandoned fields) and resource utilization activities (agriculture, forestry, fisheries activities, or aquaculture). These areas shall have at least one of the following features: (1) Density is less than one dwelling unit per 5 acres; or (2) Dominant land use is in agriculture, wetland, forest, barren land, surface water, or open space.

~~A. Development Standards. For all development activities and resource utilization in the Resource Conservation Areas, the applicant shall meet all of the following standards:~~

B. Land use management practices shall be consistent with the policies and criteria for the Habitat Protection Area provisions of this Ordinance.

C. Land within the Resource Conservation Area may be developed for residential uses at a density not to exceed one dwelling unit per 20 acres. A local jurisdiction may not authorize a variance to the maximum density of one dwelling unit per 20 acres. In calculating the 1-in-20 acre density of development that is permitted on a parcel located within the Resource Conservation Area, Town of Hillsboro :

(1) Shall count each dwelling unit;

(2) May only permit the area of any private wetlands located on the property to be included when using transfer of development rights and the area of private wetlands shall be field delineated.

D. Development activity within the Resource Conservation Areas shall be consistent with the requirements and standards for Limited Development Areas as specified in COMAR 27.01.02.04 and this Ordinance.

(1) For the purposes of calculating limitations on lot coverage, is as follows:

(a) When a site is mapped entirely as RCA, lot coverage is based on the entire site area; and

(b) When a portion of a lot or parcel is mapped as RCA, lot coverage is based on the area of the RCA.

(c) One additional dwelling unit (accessory dwelling unit) as part of a primary dwelling unit may be permitted in the Resource Conservation Area provided the additional dwelling unit does not require a variance to any critical area development standards; and

(i) Is located within the primary dwelling unit or its entire perimeter is within 100 feet of the primary dwelling unit and does not exceed 900

Formatted: Indent: Left: 2", Hanging: 0.5"

Formatted: Indent: Left: 1.5", Hanging: 0.5", Space After: 12 pt, Tab stops: Not at 1.85" + 1.85"

Formatted: Indent: Left: 2.5", First line: 0"

Formatted: Indent: Left: 2.5", First line: 0"

Commented [MG5]: The provisions for an Accessory Dwelling Unit in the RCA are not a requirement of the Critical Area Law. These provisions are opt-in only.

Commented [SH6R5]: We would like to opt-out of this Accessory Dwelling Unit

Formatted: Indent: Left: 2.5", Hanging: 0.5"

square feet in total enclosed areas; or

(ii) Is located within the primary dwelling unit and by its construction, does not increase the amount of lot coverage already attributed to the primary dwelling unit by greater than 900 square feet.

(d) An additional dwelling unit meeting all of the provisions of this section may not be subdivided or conveyed separately from the primary dwelling unit; and

(e) An additional dwelling unit that exceeds 900 square feet shall count towards the density calculations

E. Nothing in this section shall limit the ability of a land owner to participate in any agricultural easement program or to convey real property impressed with such an easement to family members provided that no such conveyance will result in a density greater than one dwelling unit per 20 acres.

**Section 7.5 Land Use and Density**

1. **Permitted Uses**

A. Permitted uses in the Critical Area shall be limited to those uses allowed by the underlying zoning classification as indicated in Article 5 and the Town of Hillsboro Table of Allowed Uses, as modified by Table I(A) below and the Critical Area Supplemental Use Standards contained in Article 8 below, provided such uses meet all standards established for the Critical Area Overlay District.

**Commented [MG7]:** A local jurisdiction may propose additional RCA uses to add to this list, provided they are approved by the Commission.

8.30	Sludge Facilities	PC	PC	PC

2. ~~Maximum Permitted Density~~

A. ~~The maximum permitted density for properties located in the Town of Hillsboro Critical Area shall be as shown in Table 2(A) below.~~

Table 2(A) <del>Maximum Residential Density (Dwelling Units Per Acre)</del>		
<del>Land Use Management Designation</del>		
<del>IDA</del>	<del>LDA</del>	<del>RCA</del>
<del>Density permitted by Underlying Zoning</del>	<del>Density permitted by Underlying Zoning</del>	<del>1 dwelling unit per 20 acres</del>

~~B. Calculation of 1 in 20 acre density of development. In calculating the 1 in 20 acre density of development that is permitted on a parcel located within the Resource Conservation Area, the Town:~~

~~1) Shall count each dwelling unit;~~

~~2) May permit the area of any private wetlands located on the property to be included under the following conditions:~~

~~a) The density of development on the upland portion of the parcel may not exceed one dwelling unit per eight (8) acres; and~~

~~b) The area of private wetlands shall be estimated on the basis of vegetative information as designated on the State wetlands maps or by private survey approved by the Town, the Commission, and Maryland Department of the Environment.~~

#### **Section 7.6 Growth Allocation**

1. Growth allocation acreage. Growth allocation available to the Town of Hillsboro includes:

A. An areas equal to five (5) percent of the RCA acreage located within the Town of Hillsboro and;

B. Growth allocation available to the Town of Hillsboro as provided for by Caroline County, Maryland.

C. A local jurisdiction shall deduct acreage from its growth allocation reserves in accordance with COMAR 27.01.02.06-4.

2. Purpose.

Growth Allocation is available for use in a Resource Conservation Area (RCA) or in a Limited Development Area (LDA) in the **Town of Hillsboro** Critical Area Overlay District. The purpose is to authorize a change in the Critical Area classification to develop at a higher density or use than the current classification allows.

3. Process.

An applicant shall submit to **Town of Hillsboro** a complete application for growth allocation that complies with the submittal and environmental report requirements of COMAR 27.01.02.06-1—,06-2. A Growth Allocation request shall be approved by [**Local Approving Authority**] prior to submission to the Commission.

**4. Requirements.**

When locating new Intensely Developed or Limited Development Areas, the following requirements apply:

- (a) An application for a new IDA or LDA shall be:
  - (i) In conformance with the requirements of COMAR Title 27 Subtitle 01; and
  - (ii) Designated on the approved Critical Area map that is submitted as part of its application to the Commission for growth allocation approval.
- (b) As part of a growth allocation approved by the Commission, the following shall be enforced:
  - (i) A buffer management plan
  - (ii) A habitat protection plan; and
  - (iii) Other applicable conditions of approval as determined by the Commission at the time of project approval.

~~Growth Allocation Floating Zone District GA.~~

~~B. Purpose. The Growth Allocation Floating Zone is not mapped but is designated for use in areas classified as Resource Conservation Areas (RCA) and/or Limited Development Area (LDA) within the Town of Hillsboro Critical Area Overlay District. The purpose of the floating zone is to permit a change in the land management classification established in the Critical Area Overlay District on specific sites so that they may be developed to the extent permitted by the underlying zoning classification or the land use management classification. Only projects, which have been approved by the Town for award of the Critical Area Growth Allocation are eligible for floating zones.~~

~~B. Designation of floating zones.~~

45

- ~~1) The Growth Allocation District GA shall be a floating zone.~~
- ~~2) The Growth Allocation District GA provides for changing the land management classification of Resource Conservation Areas (RCA's) and Limited Development Areas (LDA's) in the Critical Area Overlay District.~~

**5. Standards.** When locating new Intensely Developed or Limited Development Areas the following standards shall apply:

- a. A new Intensely Developed Area shall only be located in a Limited Development Area or

adjacent to an existing Intensely Developed Area;

**Commented [MG8]:** A local jurisdiction may propose an alternative adjacency standard if the alternative standard is consistent with the local jurisdiction's comprehensive plan and approved by the Commission.

b. A new Limited Development Area shall only be located adjacent to an existing Limited Development Area or an Intensely Developed Area;

**Commented [MG9]:** See above

C. ~~New Intensely Developed Areas shall be at least 20 acres in size unless:~~

- ~~1) They are contiguous to an existing IDA or located in an LDA; or~~
- ~~2) They are a grandfathered commercial or industrial use, which existed as of February 27, 1989. The amount of growth allocation deducted shall be equivalent to the area of the entire parcel or parcels subject to the growth allocation request.~~

D. ~~No more than one half of the Town of Hillsboro's growth allocation may be located in Resource Conservation Areas (RCAs) except as provided in subsection (I) below;~~

~~E.~~

c. A new Limited Development Area or Intensely Developed Area shall be located in a manner that minimizes impacts to Habitat Protection Area as defined herein and in COMAR 27.01.09 and in an area and manner that optimizes benefits to water quality;

d. A new Intensely Developed Areas shall only be located where they minimize their impacts to the defined land uses of the Resource Conservation Area (RCA);

e. A new Intensely Developed Area or a Limited Development Area in a Resource Conservation Area shall be located at least 300 feet beyond the landward edge of tidal wetlands or tidal waters; unless the Town of Hillsboro proposes and the Commission approves alternative measures for enhancement of water quality and habitat that provide greater benefits to the resources; and

f. New Intensely Developed or Limited Development Areas to be located in Resource Conservation Areas shall conform to all criteria of this Ordinance for such areas, shall be so designated on the Town of Hillsboro Critical Area Maps and shall constitute an amendment to this Ordinance subject to review by the Town of Hillsboro Planning Commission and approval by the Town Commissioners and the Critical Area commission as provided herein.

g. Locate new intensely developed areas and limited development areas outside of areas vulnerable to climate change as identified by the Town of Hillsboro, unless the Town of Hillsboro proposes and the Commission approves measures that assess climate resiliency and vulnerability and incorporate siting, design, construction and other natural features to significantly enhance climate resiliency and reduce vulnerability.

**Formatted:** Indent: Left: 1.5", Hanging: 0.35", Right: 0.55", Space Before: 1.9 pt, Line spacing: Multiple 1.15 li

**6. Additional Factors.** In reviewing map amendments or refinements involving the use of growth allocation the Planning Commission and the Town Commissioners shall consider the following factors:

a. Consistency with the Town of Hillsboro Comprehensive Plan and whether the growth allocation would implement the goals and objectives of the adopted plan. "Consistency with" means that a standard or factor will further, and not be contrary to the following items

in the comprehensive plan:

- i. Policies;
- ii. Timing of the implementation of the plan, of development, and of rezoning;
- iii. Development patterns;
- iv. Land uses; and

v. Densities or intensities.

b. For a map amendment or refinement involving a new Limited Development Area, whether the development is:

- i. To be served by a public wastewater system;
- ii. The completion of an existing subdivision;
- iii. An expansion of an existing business; or
- iv. To be clustered.

c. For a map amendment or refinement involving a new Intensely Developed Area, whether the development is:

- i. To be served by a public wastewater system;
- ii. If greater than 20 acres, to be located in a designated Priority Funding Area; and
- iii. To have a demonstrable economic benefit.
- iv. [Have an allowed average density of at least 3.5 units per acre as calculated under State Finance and Procurement Article, §5-7B-03\(h\), Annotated Code of Maryland](#)

d. The use of existing public infrastructure, where practical;

e. Consistency with State and regional environmental protection policies concerning the protection of threatened and endangered species and species in need of conservation that may be located on- or off-site;

f. Impacts on a priority preservation area;

g. Environmental impacts associated with wastewater and stormwater management practices and wastewater and stormwater discharges to tidal waters, tidal wetlands, and tributary streams; and

hH. Environmental impacts associated with location in a coastal hazard area or an increased risk of severe flooding attributable to the proposed development and/or sea level rise.

i. Environmental impacts on underserved or overburdened communities.

**Section 7.7 The ~~100-Foot~~ Buffer**

1. Applicability and Delineation. An applicant for a development activity or a change in land use shall apply all of the required standards for a minimum 100-foot Buffer as described in this Section. The minimum 100-foot Buffer shall be delineated in the field and shall be shown on all applications as follows:
  - A. The minimum 100-foot Buffer is delineated landward from:
    - 1) The mean high water line of tidal water;
    - 2) The edge of each bank of a tributary stream; and
    - 3) The upland boundary of a tidal wetland.
  - B. The Buffer shall be expanded beyond the minimum 100-foot Buffer as described in §1(A) above and the minimum 200-foot Buffer as described in §1(C) below, to include the following contiguous land features:
    - 1) A steep slope at a rate of four feet for every one percent of slope or the entire steep slope to the top of the slope, whichever is greater;
    - 2) A nontidal wetland to the upland boundary of the nontidal wetland;
    - 3) The 100-foot buffer that is associated with a Nontidal Wetland of Special State Concern as stated in COMAR §26.23.06.01;
    - 4) For an area of hydric soils or highly erodible soils, the lesser of:
      - a) The landward edge of the hydric or highly erodible soils; or
      - b) Three hundred feet where the expansion area includes the minimum 100-foot Buffer.
  - C. Applications for a subdivision or for a development activity on land located within the RCA requiring site plan approval after July 1, 2008 shall include a minimum Buffer of at least 200 feet from a tidal waterway or tidal wetlands, and 100 feet from a tributary stream.
    - 1) The 200-foot Buffer may be reduced if strict application of the 200-foot Buffer would preclude either subdivision at a density of one dwelling unit per 20 acres, or an intrafamily

transfer subdivision.

~~5) 2) The reduced Buffer should be the minimum necessary to accommodate a dwelling and a sewage reserve area, as determined by the Planning Director, but no less than 100 feet. An expanded Buffer in accordance with §1(B) above; or~~

~~6) A Buffer of at least 200 feet from a tidal waterway or tidal wetlands; and a Buffer of at least 100 feet from a tributary stream, whichever is greater.~~

C.D. The provisions of §1(C) above do not apply if:

- 1) The application for subdivision or site plan approval was submitted before July 1, 2008, and legally recorded (subdivisions) or received final approval (site plans), by July 1, 2010;
  - 2) The application involves the use of growth allocation.
2. Permitted activities. If approved by the Town, disturbance to the Buffer is permitted for the following activities provided mitigation is performed in accordance with an approved Buffer Management Plan as required per Section 6 of this part:
- A. A new development or redevelopment activity associated with a water-dependent facility or located in an approved Buffer Management Area; or
  - B. A shore erosion control activity constructed in accordance with COMAR 26.24.02, COMAR 27.01.04, and this Zoning Ordinance;
  - C. A development or redevelopment activity approved in accordance with the Variance provisions of Article 14;
  - D. A new development or redevelopment activity on a lot or parcel that was created before January 1, 2010 where:
    - 1) The Buffer is expanded for highly erodible soil on a slope less than 15 percent or is expanded for a hydric soil and the expanded Buffer occupies at least 75% of the lot or parcel;
    - 2) The development or redevelopment is located in the expanded portion of the Buffer and not within the 100-foot Buffer; and
    - 3) Mitigation occurs at a 2:1 ratio based on the lot coverage of the proposed development activity that is in the expanded Buffer.

E. Associated with the placement of dredged material under COMAR 27.01.03.03D.

E.F. A new or replacement septic system on a lot created before February 27, 1989, where:

- 1) The Health Department has determined the Buffer is the only available location

for the septic system; and

- 2) Mitigation is provided at a 1:~~1~~ ratio for area of canopy cleared of any forest or developed woodland.

3. Buffer establishment in vegetation. An applicant for a development activity, redevelopment activity or a change in land use that occurs outside the Buffer, but is located on a riparian lot or parcel that includes the minimum 100-foot Buffer, shall establish the Buffer in vegetation if the Buffer is not fully forested or fully established in woody or wetland vegetation. A Buffer Management Plan in accordance with the standards of §6 below is required.

A. The provisions of this section apply to:

- 1) A new subdivision or a new lot;
- 2) A lot or parcel that is converted from one land use to another;
- 3) Development or redevelopment on a lot or parcel created before January 1, 2010.

B. The provisions of this section do not apply to the in-kind replacement of a structure.

C. If a Buffer is not fully forested or fully established in woody or wetland vegetation, the Buffer shall be established through planting in accordance with COMAR 27.01.09.01- 1

D. A local jurisdiction may authorize an applicant to deduct from the total establishment requirement an area of lot coverage removed from the buffer if:

(1) The lot coverage existed before the date of local program adoption or was allowed by local procedures; and

(2) The total area is stabilized.

E. If an applicant for a subdivision of a lot uses or leases the lot for an agricultural purpose, the applicant:

(1) In accordance with local land recordation requirements, shall record an approved buffer management plan under Section F of this Part; and

(2) If authorized by the local jurisdiction, may delay implementation of the buffer management plan until the use of the lot is converted to a nonagricultural purpose.

4. Mitigation for impacts to the Buffer. An applicant for a development activity that includes disturbance to the Buffer shall mitigate for impacts to the Buffer and shall provide a Buffer Management Plan in accordance with the standards set forth in this section.

A. Authorized development activities may include a variance, subdivision, site plan, shore

erosion control permit, building permit, grading permit, septic system approved by the Health Department on a lot created before February 27, 1989, and special exception.

- B. All authorized development activities shall be mitigated according to COMAR 27.01.09.01-2:
- C. All unauthorized development activities in the Buffer shall be mitigated at a ratio of 4:1 for the area of disturbance in the Buffer.
- D. Planting for mitigation shall be planted onsite within the Buffer. If mitigation planting cannot be located within the Buffer, the Town may permit planting in the following order of priority:
  - 1) On-site and adjacent to the Buffer; and
  - 2) On-site elsewhere in the Critical Area.

E. For the removal of a dead tree, the affected area shall be stabilized with native groundcover or other native vegetation as necessary.

F. The removal of a diseased, dying, invasive, or hazardous tree shall be mitigated with one tree of at least ¾-inch caliper for each tree removed or the affected area shall be stabilized in native woody vegetation if a tree cannot be replanted due to space constraints.

G. The installation or cultivation of new lawn or turf in the Buffer is prohibited.

H. As applicable to a site, Town of Hillsboro shall require that an area in the buffer that is temporarily disturbed by a development activity be restored to pre-disturbance conditions.

5. Buffer Planting Standards.

A. An applicant that is required to plant the Buffer for Buffer establishment or Buffer mitigation shall apply the planting standards set forth on COMAR 27.01.09.01-2.

B. A Variance to the planting and mitigation standards of this Article is not permitted.

6. Required Submittal of Buffer Management Plans. An applicant that is required to plant the Buffer to meet establishment or mitigation requirements shall submit a Buffer Management Plan as provided in COMAR 27.01.09.01-3 with the application for the specific activity. The provisions of this part do not apply to maintaining an existing grass lawn or an existing garden in the Buffer.

A. A Buffer Management Plan that includes planting for establishment shall be submitted with all other application materials, clearly specify the area to be planted and state if the applicant is:

- 1) Fully establishing the Buffer;

- 2) Partially establishing an area of the Buffer equal to the net increase in lot coverage, or
  - 3) Partially establishing an area of the Buffer equal to the total lot coverage.
- B. Any permit for development activity that requires Buffer establishment or Buffer mitigation will not be issued until the Town approves a Buffer Management Plan.
- C. An applicant may not obtain final approval of a subdivision application until the Buffer Management Plan has been reviewed and approved.
- D. The Town will not approve a Buffer Management Plan unless:
- 1) The plan clearly indicates that all planting standards under §5 will be met; and
  - 2) Appropriate measures are in place for the long-term protection and maintenance of all Buffer areas.
- E. For a Buffer Management Plan that is the result of an authorized disturbance to the Buffer, a permit authorizing final use and occupancy will not be issued until the applicant:
- 1) Completes implementation of a Buffer Management Plan; or
  - 2) Provides financial assurance to cover the costs for:
    - a) Materials and installation; and
    - b) If the mitigation or establishment requirement is at least 5,000 square feet, long-term survivability requirements as set forth in COMAR 27.01.09.01-2.
- F. Concurrent with recordation of a subdivision plat, an applicant shall record a protective easement for the Buffer.
- G. If an applicant fails to implement a Buffer Management Plan, that failure shall constitute a violation as described in **Article 17**.
- 1) A permit for development activity will not be issued for a property that has the violation.
- H. An applicant shall post the property proposed for subdivision with signs prior to final recordation in accordance with COMAR 27.01.09.01-2.
7. Fees-In-Lieu of Buffer Mitigation. A fee in-lieu of mitigation will be collected if the planting requirements of the Buffer Management Plan cannot be fully met onsite in accordance with the following standards:

- A. Fee-in-lieu monies shall be collected and held in a special fund, which may not revert to the Town of Hillsboro's general fund;
- B. Fee-in-lieu shall be assessed at \$1.50 per square foot of required Buffer mitigation;
- C. A portion of fee-in-lieu money can be used for management and administrative costs; however, this cannot exceed 20% of the fees collected; and
- D. Fee-in-lieu monies shall be used for the following projects:
  - 1) To establish the Buffer on sites where planting is not a condition of development or redevelopment;
  - 2) For water quality and habitat enhancement projects as approved by the Critical Area Commission or by agreement between the Town and the Critical Area Commission.
- E. Shore Erosion Control Projects. Shore erosion control measures are permitted activities within the Buffer in accordance with the following requirements:
  - 1) An applicant for a shore erosion control project that affects the Buffer in any way, including, but not limited to access, vegetation removal and pruning, or backfilling shall submit a Buffer Management Plan in accordance with the requirements of this section; and
  - 2) Comply fully with all of the policies and criteria for a shore erosion control project stated in COMAR 27.01.04 and COMAR 26.24.06.01.

**Section 7.8** Modified Buffer Area (MBA)

- 1. Development and Redevelopment Standards. New development or redevelopment activities, including structures, roads, parking areas and other impervious surfaces or septic systems will not be permitted in the Buffer in a designated MBA BMA unless the applicant can demonstrate that there is no feasible alternative and the Planning Commission finds that efforts have been made to minimize Buffer impacts and the development complies with the following standards:
  - A. Development and redevelopment activities have been located as far as possible from mean high tide, the landward edge of tidal wetlands, or the edge of tributary streams.
  - B. Variances to other local setback requirements have been considered before additional intrusion into the Buffer.
  - C. Commercial, industrial, institutional, recreational and multi-family residential development and redevelopment shall meet the following standards:

**Commented [MG10]:** A municipality may work with Commission staff to create alternative MBA standards that address a local jurisdiction's needs, such as coastal resiliency.

- 1) New development, including accessory structures, shall minimize the extent of intrusion into the Buffer. New development shall not be located closer to the water (or edge of tidal wetlands) than the minimum required setback for the zoning district or 50 feet, whichever is greater. Structures on adjacent properties shall not be used to determine the setback line.
  - 2) Redevelopment, including accessory structures, shall minimize the extent of intrusion into the Buffer. Redevelopment shall not be located closer to the water (or edge of tidal wetlands) than the minimum setback for the zoning district or 25 feet, whichever is greater. Structures on adjacent properties shall not be used to determine the setback line. A new structure may be constructed on the footprint of an existing structure.
- D. Single family residential development and redevelopment shall meet the following standards:
- 1) New development or redevelopment shall minimize the shoreward extent of intrusion into the Buffer. New development and redevelopment shall not be located closer to the water (or the edge of tidal wetlands) than principal structures on adjacent properties or the minimum setback for the zoning district, whichever is greater. In no case shall new development or redevelopment be located less than 50 feet from the water (or the edge of tidal wetlands).
  - 2) Existing principal or accessory structures may be replaced in the same footprint.
  - 3) New accessory structures may be located closer to the water than the setback if the Planning Commission has determined there are no other locations for the structures. The area of new accessory structures shall not exceed 500 square feet within 50 feet of the water and 1,000 square feet total in the Buffer.
- E. Variances to other local setback requirements shall be considered before additional intrusion into the Buffer is permitted.
- F. Development and redevelopment may not impact any Habitat Protection Area (HPA) other than the Buffer, including nontidal wetlands, other State or federal permits notwithstanding.
- G. Buffer Management Area (BMA) designation shall not be used to facilitate the filling of tidal wetlands that are contiguous to the Buffer or to create additional buildable land for new development or redevelopment.
- H. No natural vegetation may be removed in the Buffer except that required by the proposed construction.
- I. Mitigation for development or redevelopment in the in the BMA approved under the

provisions of this subsection shall be implemented as follows:

- 1) Natural forest vegetation of an area twice the extent of the footprint of the development activity within the 100-foot Buffer shall be planted on site in the Buffer or at another location approved by the Planning Commission.
- 2) Applicants who cannot fully comply with the planting requirement in §1 above, may use offset by removing an equivalent area of existing lot coverage in the Buffer.
- 3) Applicants who cannot comply with either the planting or offset requirements in §1 above shall pay into a fee-in-lieu program as follows:
  - a) Applicants shall submit to the Planning Commission two cost estimates from qualified landscape businesses for planting the equivalent of twice the extent of the development within the 100-foot Buffer. The estimate shall include the cost of stock, planting, staking, mulching and a one year survival guarantee.
  - b) The Planning Commission shall determine the amount of the fee-in-lieu based on the average of the two estimates.
- 4) Any fees-in-lieu collected under these provisions shall be placed in an account that will assure their use only for projects within the Critical Area to enhance wildlife habitat, improve water quality, or otherwise promote the goals of the Town of Hillsboro's Critical Area Program. The funds cannot be used to accomplish a project or measure that would have been required under existing local, State, or federal laws, regulations, statutes, or permits. The status of these funds must be reported to the Critical Area Commission in the jurisdiction's quarterly reports.
- 5) Any required mitigation or offset areas shall be protected from future development through an easement, development agreement, plat notes or other instrument approved by the Town and recorded among the land records of the County.

**Commented [MG11]:** FIL can be simplified to standard \$1.50 per sq ft.

#### **Section 7.9 Other Habitat Protection Areas**

1. Identification. An applicant for a development activity, redevelopment activity or change in land use shall identify all applicable Habitat Protection Areas and follow the standards contained in this section. Habitat Protection Areas includes:
  - A. Threatened or endangered species or species in need of conservation;
  - B. Colonial waterbird nesting sites;

- C. Historic waterfowl staging and concentration areas in tidal waters, tributary streams or tidal and nontidal wetlands;
- D. Existing riparian forests;
- E. Forest areas utilized as breeding areas by future interior dwelling birds and other wildlife species;
- F. Other plant and wildlife habitats determined to be of local significance;
- G. Natural Heritage Areas; and
- H. Anadromous fish propagation waters.

2. Maps identifying these specific Habitat Protection Areas are maintained by the Department of Natural Resources Wildlife and Heritage Division. The most recent updated inventory was completed on [INSERT DATE] and recommendations contained in [INSERT REFERENCE TO THE REPORT] are hereby incorporated into this Ordinance.

2.3. Standards.

A. An applicant for a development activity proposed for a site within the Critical Area that is in or near a Habitat Protection Area listed above shall request review by the Department of Natural Resources Wildlife and Heritage Service, and as necessary United States Fish and Wildlife Service (USFWS), for comment and technical advice. Based on the Department's recommendations, additional research and site analysis may be required to identify the location of threatened and endangered species and species in need of conservation on a site. Based on the Department's recommendations, additional research and site analysis may be required to identify the location of threatened and endangered species and species in need of conservation on a site.

B. —If the presence of a Habitat Protection Area is confirmed by the Department of Natural Resources, the applicant shall follow the requirements of COMAR 27.01.09.02 through 27.01.09.05, all recommendations from DNR WHS, and as necessary all recommendations from USFWS.

(1) If potential FIDS habitat is identified, the proposed development shall conform to the Critical Area Commission's FIDS Guidance Manual, dated June 2000 and as updated.

(2) If potential anadromous fish propagation waters are identified, the proposed development shall conform to the policies and criteria listed in COMAR 27.01.09.05.

1.

~~develop a Habitat Protection Plan in coordination with the Department of Natural Resource.~~

B-C. The applicant shall obtain approval of the Habitat Protection Plan from the Planning Commission or the appropriate designated approving authority. The specific protection and conservation measures included in the Plan shall be considered conditions of approval of the project.

#### **Section 7.10 Environmental Impact Assessment (EIA)**

1. Applicability. The Planning Commission, Zoning of Appeals, or Town Commissioners may require an Environmental Impact Assessment (EIA) for the following:
  - A. Development or redevelopment activities in the Critical Area requiring site an approval;
  - B. Development or redevelopment activities in the Critical Area requiring subdivision approval;
  - C. Development or redevelopment activities within a Habitat Protection Area other than a detached single family dwelling;
  - D. An application of Growth Allocation; or
  - E. An application of a Variance other than for detached single family dwelling.

#### **Section 7.11 Water Dependent Facilities.**

##### **1. Applicability.**

**A. The provisions of this chapter apply to those structures or works associated with industrial, maritime, recreational, educational, or fisheries activities that require location at or near the shoreline within the Buffer.**

**B. The provisions of this chapter are not applicable to:**

**(1) A private pier that:**

**(a) Is installed or maintained by a riparian landowner; and**

**(b) Is not part of a residential project that provides a community pier or other community boat-docking or storage facility under F. of this chapter; or**

**(2) A nonwater-dependent project covered under COMAR 27.01.13.**

**C. The requirements of COMAR 27.01.02 apply to this chapter.**

##### **2. General Criteria.**

**The following standards shall apply to new or expanded development activities associated with water-**

dependent facilities:

- A. In accordance with Natural Resources Article §8-1808.3, Annotated Code of Maryland, permitted development in the Buffer is limited to the minimum lot coverage necessary to accommodate each water dependent facility or activity.
- B. New or expanded development activities may be permitted in the Buffer in the Intensely Developed Areas and Limited Development Areas provided that it can be shown:
  - (1) That the facility or activity are water-dependent;
  - (2) That the facility or activity meets a recognized private right or public need;
  - (3) That adverse effects on water quality, fish, plant and wildlife habitat are first avoided, or if unavoidable, minimized;
  - (4) That, insofar as possible, a non-water-dependent project associated with the water-dependent facility or activity is located outside the Buffer;
  - (5) Impacts to fish, wildlife, or plant habitat are avoided, or if unavoidable, minimized; and
  - (6) Mitigation is provided at a minimum ratio of 1:1 based on the square footage of canopy coverage removed.
- C. Except as otherwise authorized in this section, a water-dependent facility or activity is prohibited in the Buffer of the Resource Conservation Area.
- D. The placement of dredged material in the Buffer or a portion of the Critical Area that has been designated as a habitat protection area is prohibited, except as necessary for:
  - (1) A beneficial use approved by the Board of Public Works or the Department of the Environment, such as:
    - (a) Backfill for a shoreline stabilization measure;
    - (b) Use in a nonstructural shoreline stabilization measure, including a living shoreline;
    - (c) Beach nourishment;
    - (d) Restoration of an island;
    - (e) The creation, restoration, or enhancement of a wetland, or a fish, wildlife, or plant habitat; or
    - (f) Any other approved beneficial use; or
  - (2) Placement in an area that was approved for the disposal of channel maintenance dredged material before June 11, 1988; and

E. Shall ensure:

- (1) The avoidance or, if unavoidable, the minimization of impacts to fish, wildlife, or plant habitat; and
- (2) Mitigation at a ratio of 1:1 based on the square footage of the area of the canopy coverage removed

3. General Requirements for the Location of Water-Dependent Facilities or Activities.

A. The Town of Hillsboro shall evaluate on a case-by-case basis all proposals for expansion of existing or new water-dependent facilities. The Town of Hillsboro shall work with appropriate State and federal agencies to develop a plan for the approval of an area suitable for the location of a new or expanded water-dependent facility or activity.

B. The following siting factors shall be considered when evaluating proposals for new or expanded water dependent facilities:

- (1) The impact on the water body upon which the water-dependent facility or activity is proposed that would likely result from the approval of that location, including:
  - (a) Alteration of an existing water circulation pattern or salinity regime;
  - (b) Adequacy of area flushing characteristics;
  - (c) Necessity of, and proximity to, a dredging operation; and
  - (d) Interference with the natural transport of sand;
- (2) Disturbance to:
  - (a) An oyster harvest area, as defined in COMAR 08.02.04.11;
  - (b) An area covered in a current aquaculture lease, as defined in Natural Resources Article, §4-11A-01, Annotated Code of Maryland;
  - (c) A harvest reserve area, as designated under Natural Resources Article, §4-1009.1, Annotated Code of Maryland;
  - (d) An oyster sanctuary, as established in COMAR 08.02.04.15A; and
  - (e) Any other shellfish located in a shellfish area regulated by the Department of Natural Resources;
- (3) Avoidance of disturbance to water quality and aquatic or terrestrial habitat resulting from the method or manner of dredging; and
- (4) The avoidance or, if unavoidable, the minimization of:
  - (a) Disturbance to:
    - i. A wetland;

- ii. Submerged aquatic vegetation;
- iii. A habitat of threatened or endangered species or species in need of conservation;
- iv. In accordance with COMAR 26.08.02.04-1, a water body identified by the Department of the Environment as a Tier II, high quality water body and its watershed; and
- v. A nontidal wetland of special State concern, as set forth in COMAR 26.23.01.01 and .04 and COMAR 26.23.06.01; and

(b) Adverse impact on water quality that would likely result from the facility or activity, such as nonpoint source runoff, sewage discharge, or other pollution related to vessel maintenance.

4. Industrial and port-related facilities.

New, expanded or redeveloped industrial or port-related facilities or activities and the replacement of these facilities or activities may be permitted only in those portions of Intensely Developed Areas that have been designated as Modified Buffer Areas as described in this ordinance and are subject to the provisions set forth in that Chapter.

5. Commercial Marinas and Other Water-Dependent Commercial Maritime Facilities and Activities.

A. In addition to meeting the requirements of Part 7.11B and 7.11C;

- (1) A new or expanded commercial marina or related commercial maritime facility or activity may be permitted in the Buffer of an IDA or LDA;
- (2) A redeveloped or expanded commercial marina or related commercial maritime facility or activity may be permitted in the Buffer of a RCA; or
- (3) A new commercial marina or related commercial maritime facility or activity may be permitted in the Buffer of an RCA, only if it is publicly owned and meets all the requirements of Section 7 of this Part.

B. Town of Hillsboro shall require that the operation of each commercial marina and each related commercial maritime facility or activity complies with:

- (1) The requirements of COMAR 26.08.04.09 and, as applicable, COMAR 26.24.04.03; and
- (2) The stormwater, wastewater, noncontact cooling water discharge, and any other applicable requirements of the Department of the Environment.

6. Community Piers and Other Community Boat-Docking and Storage Facilities.

A. In addition to meeting the requirements of 7.11.B and 7.11.C, new or expanded community piers or other community boat-docking and storage facilities may be permitted in the Buffer if:

- (1) The owner or operator of the pier or facility:
  - (a) Does not offer food, fuel, or other goods and services for sale in the buffer or on the community pier; and
  - (b) As applicable, complies with the requirements of COMAR 26.24.04.03;
- (2) The pier or facility is community-owned and established and operated for the benefit of the residents of a platted and recorded riparian subdivision;
- (3) The pier or facility is associated with a residential project approved by the Town for the Critical Area and consistent with all State requirements and program requirements for the Critical Area;
- (4) Disturbance to the Buffer is the minimum necessary to provide a single point of access to the pier or facility; and
- (5) If community piers are provided as part of a new residential project, private piers in the development are not allowed.

B. The number of slips authorized at a pier or facility shall be the lesser of (a) or (b) below:

- (1) One slip for each 50 feet of shoreline in a residential project in the Intensely Developed and Limited Development Areas, and one slip for each 300 feet of shoreline in a residential project in the Resource Conservation Area; or
- (2) A density of slips to platted lots or dwellings within a residential project in the Critical Area according to the following schedule:

Table 6.F.2 Number of Slips Permitted

<u>Platted Lots or Dwellings in the Critical Area</u>	<u>Slips</u>
<u>up to 15</u>	<u>1 for each lot</u>
<u>16 – 40</u>	<u>15 or 75% whichever is greater</u>
<u>41 – 100</u>	<u>30 or 50% whichever is greater</u>
<u>101 – 300</u>	<u>50 or 25% whichever is greater</u>
<u>over 300</u>	<u>75 or 15% whichever is greater</u>

7. Public Beaches and Other Public Water-Oriented Recreation or Education Areas or Activities.

A. In addition to meeting the requirements of 7.11.B and 7.11.C, public beaches or other public water-oriented recreation or education areas or activities may be permitted in the Buffer of:

- (1) An Intensely Developed Area; or
- (2) A Limited Development Area or a Resource Conservation Area provided that:

- (a) Adequate sanitary facilities exist;
- (b) Sanitary and service facilities are, to the extent possible, located outside the Buffer;
- (c) Permeable surfaces are used to the extent practicable, if no degradation of groundwater would likely result; and
- (d) Disturbance to natural vegetation is first avoided or, if unavoidable, minimized.

B. Areas for public passive outdoor recreation, such as nature study, and hiking, hunting, and trapping, and for education, may be permitted in the Buffer within a Limited Development Area or a Resource Conservation Area if sanitary and service facilities for these uses are located outside of the Buffer.

8. Research-Associated and Education-Associated Water-Dependent Facilities or Activities.

In addition to meeting the requirements of 7.11.B and 7.11.C, a research-associated water-dependent facility or activity or of an education-associated water-dependent facility or activity may be permitted in the Buffer of an IDA, LDA, or RCA, if any associated nonwater-dependent project or activity is located outside the Buffer.

9. Aquaculture and Fishery Facilities and Activities: Water Quality Restoration.

The following types of aquaculture and fishery facilities and activities may be permitted in the Buffer of an IDA, LDA, or RCA:

- A. A shore-based facility or activity necessary for a commercial aquaculture operation;
- B. A commercial water-dependent facility or activity, including a structure for crab shedding, a fish off-loading dock, and a shellfish culture operation; and
- C. A facility or activity that supports water quality restoration in the Chesapeake Bay, the Atlantic Coastal Bays, or their watersheds.

**Section 8.3 Supplemental Use Standards for the Critical Area**

The following supplemental use standards apply to the permitted uses in the Chesapeake Bay Critical Area, listed in Table I (A) of Article 7 above, and shall apply when the permitted use is allowed in the underlying zoning district, as described in Article 5.

1. Accessory Dwelling Unit. See Table I(A)(1.10) in Article 7 above.

- A. If a permitted use in the underlying zoning district, one additional dwelling unit (accessory dwelling unit) as part of a primary dwelling unit may be permitted in the Resource Conservation Area (RCA) provided the additional dwelling unit is served by a municipal sewer system and:

~~1) is located within the primary dwelling unit or its entire perimeter is within 100 feet of the primary dwelling unit and does not exceed 900 square feet in total enclosed areas; or~~

~~2) is located within the primary dwelling unit and does not increase the amount of lot coverage already attributed to the primary dwelling unit.~~

~~B. An additional dwelling unit meeting all of the provisions of this section may not be subdivided or conveyed separately from the primary dwelling unit; and~~

~~C. The provisions of this section may not be construed to authorize the granting of a Variance, unless the Variance is granted in accordance with the Variance provisions contained in Article 14.~~

1. Existing Institutional Uses. See Table I(A)(2.10) in Article 7 above.

A. Existing institutional facilities shall be allowed in Resource Conservation Areas.

B. Expansion of existing institutional facilities and uses in the Resource Conservation 60 Area shall be subject to the non-conforming use and Grandfathering provisions, contained in Article 12, and may require growth allocation as described in Article 7.

2. New Institutional Uses. See Table I(A)(2.20) in Article 7 above.

A. New institutional facilities and uses, except those specifically listed shall not be permitted in Resource Conservation Areas (RCAs).

B. Certain institutional uses may be permitted if allowed in the underlying zoning district and if the use complies with all requirements for such uses in this Chapter. These institutional uses are limited to:

- 1) A cemetery that is an accessory use to an existing church; provided manmade lot coverage is limited to 15 percent of the site or 20,000 square feet, whichever is less;
- 2) A day care facility in a dwelling where the operators live on the premises and there are no more than eight (8) children;
- 3) A group home or assisted living facility with no more than eight (8) residents; and
- 4) Other similar uses determined by the Town and approved by the Critical Area Commission to be similar to those listed above.

3. Existing Commercial Uses. See Table I (A)(3.10) in Article 7 above.
  - A. Existing commercial facilities and uses, including those that directly support agriculture, forestry, aquaculture or residential development shall be allowed in Resource Conservation Areas.
  - B. Expansion of existing commercial facilities and uses in the Resource Conservation Area shall be subject to the non-conforming use and Grandfathering provisions, contained in Article 12, and may require growth allocation as described in Article 7.
  
4. New commercial uses (3.20). See Table I(A)(2.20) in Article 7 above.
  - A. New commercial uses, except those specifically listed, shall not be permitted in Resource Conservation Areas (RCAs).
  - B. Certain commercial uses may be permitted if allowed in the underlying zoning district, as described in Article 5, and if the use complies with all requirements. These commercial uses are limited to:
    - 1) A home occupation as an accessory use on a residential property;
    - 2) A bed and breakfast facility located in an existing residential structure and where meals are prepared only for guests staying at the facility; and
    - 3) Other uses determined by the Town of Hillsboro and approved by the Critical Area Commission to be similar to those uses described in Article 7.

~~6. Expansion of Existing Commercial Marinas. See Table I(A)(4.10) in Article 7 above.~~

~~A. Expansion of existing commercial marinas may be permitted within Resource Conservation Areas provided:~~

~~1) Water quality impacts are quantified and appropriate Best Management Practices that address impacts are provided;~~

~~2) That it will result in an overall net improvement in water quality at or leaving the site of the marina;~~

~~3) The marina meets the sanitary requirements of the Department of the Environment; and~~

~~4) Expansion is permitted under the nonconforming use provisions described in Article 12.~~

~~B. Expansion of existing commercial marinas may be permitted in the Buffer in the Intensely Developed Areas and Limited Development Areas provided that the applicant demonstrates:~~

~~1) The project meets a recognized private right or public need;~~

~~2) Adverse effects on water quality, fish, plant and wildlife habitat are minimized and Best Management Practices are applied to address impacts;~~

~~3) Insofar as possible, non-water dependent structures or operations associated with water dependent projects or activities are located outside the Buffer; and~~

~~4) Expansion is permitted under the nonconforming use provisions described in Article 12.~~

~~7. New Marina, Commercial. See Table 1(A)(4.20) in Article 7 above.~~

~~A. New commercial marinas shall not be permitted in Resource Conservation Areas (RCAs).~~

~~B. New commercial marinas may be permitted in Limited Development Areas (LDAs) and Intensely Developed Areas (IDAs) if allowed in the underlying zoning, provided:~~

~~1) New marinas shall establish a means of minimizing the discharge of bottom wash waters into tidal waters.~~

~~2) New marinas meet the sanitary requirements of the Department of the Environment.~~

~~3) New marinas may be permitted in the Buffer in the Intensely Developed Areas and Limited Development Areas provided that it can be shown:~~

~~a) The project meets a recognized private right or public need;~~

~~b) Adverse effects on water quality, fish, plant and wildlife habitat are minimized and Best Management Practices are applied to address impacts; and~~

~~e) Insofar as possible, non-water dependent structures or operations associated with water dependent projects or activities are located outside the Buffer.~~

~~8. Community Piers and Noncommercial Boat Docking and Storage. See Table 1(A)(4.30) in Article 7 above.~~

~~A. New or expanded community marinas and other non-commercial boat docking and storage facilities may be permitted in the Buffer subject to requirements provided that:~~

- ~~1) — These facilities may not offer food, fuel, or other goods and services for sale and shall provide adequate and clean sanitary facilities;~~
- ~~2) — The facilities are community owned and established and operated for the benefit of the residents of a platted and recorded riparian subdivision;~~
- ~~3) — The facilities are associated with a residential development approved by the Town for the Critical Area and consistent with all State requirements and the requirements applicable to the Critical Area;~~
- ~~4) — Disturbance to the Buffer is the minimum necessary to provide a single point of access to the facilities and Best Management Practices are applied to address impacts; and~~
- ~~5) — If community piers, slips, or moorings are provided as part of the new development, private piers in the development are not allowed.~~

~~B. Number of slips or piers permitted. The number of slips or piers permitted at the facility shall be the lesser of 1) or 2) below:~~

- ~~1) — One slip for each 50 feet of shoreline in the subdivision in the Intensely Developed and Limited Development Areas and one slip for each 300 feet of shoreline in the subdivision in the Resource Conservation Area; or~~
- ~~2) — A density of slips or piers to platted lots or dwellings within the subdivision in the Critical Area according to the following schedule:~~

<del>Platted Lots or Dwellings in the Critical Area</del>	<del>Slips</del>
<del>up to 15</del>	<del>1 for each lot</del>
<del>16-40</del>	<del>15 or 75% whichever is greater</del>
<del>41-100</del>	<del>30 or 50% whichever is greater</del>
<del>101-300</del>	<del>50 or 25% whichever is greater</del>
<del>over 300</del>	<del>75 or 15% whichever is greater</del>

~~9. — Public Beaches and Public Water-Oriented Recreational and Educational Areas. See Table I(A)(1.40) in Article 7 above.~~

~~A. Public beaches or other public water-oriented recreation or education areas including,~~

~~but not limited to, publicly owned boat launching and docking facilities and fishing piers may be permitted in the Buffer in Intensely Developed Areas.~~

~~B. These facilities may be permitted within the Buffer in Limited Development Areas and Resource Conservation Areas provided that:~~

~~1) Adequate sanitary facilities exist;~~

~~2) Service facilities are, to the extent possible, located outside the Buffer;~~

~~3) Permeable surfaces are used to the extent practicable, if no degradation of groundwater would result;~~

~~4) Disturbance to natural vegetation is minimized and Best Management Practices are applied to address impacts and Best Management Practices are applied to~~

~~address impacts; and~~

~~5) Areas for possible recreation, such as nature study, and hunting and trapping, and for education, may be permitted in the Buffer within Resource Conservation Areas if service facilities for these uses are located outside of the Buffer.~~

~~10. Research Areas. See Table I(A)(4.50) in Article 7 above.~~

~~A. Water dependent research facilities or activities operated by State, Federal, or local agencies or educational institutions may be permitted in the Buffer, if non-water dependent structures or facilities associated with these projects are, to the extent possible, located outside of the Buffer.~~

~~11. Fisheries Activities. See Table I(A)(4.60) in Article 7 above.~~

~~A. Commercial water dependent fisheries including, but not limited to structures for crab shedding, fish off loading docks, shellfish culture operations and shore-based facilities necessary for aquaculture operations and fisheries activities may be permitted in the Buffer in Intensely Developed Areas, Limited Development Areas and Resource Conservation Areas.~~

~~12. Structures on Piers. See Table I(A)(4.70) in Article 7 above.~~

4  
7

~~A. Except as provided below, construction of dwelling unit or other non water dependent structure on a pier located on State or private tidal wetlands is prohibited.~~

~~1) A building permit for a project involving the construction of a dwelling unit or other non water dependent structure on a pier located on State or private wetlands within the Critical Area may be approved provided a permit was issued by the Department of Natural Resources on or before January 1, 1989.~~

~~2) A building permit for a project involving the construction of a dwelling unit or other non water dependent structure on a pier located on State or private wetlands within the Critical Area may be approved if the following conditions exist:~~

~~a) The project is located in an Intensely Developed Area (IDA);~~

~~b) The project is constructed on a pier that existed as of December 1, 1985 that can be verified by a Department of Natural Resources aerial photograph dated 1985, accompanied by a map of the area; and~~

~~e) The project does not require an expansion of the pier greater than 25% of the area of piers or dry docks removed on the same property; however, additional expansion may be allowed in the amount of 10% of the water coverage eliminated by removing complete piers from the same or other properties. If the horizontal surface of a pier to be removed is not intact, but pilings identify its previous size, then that area may be used in determining the additional expansion permitted. The project expansion based on water coverage eliminated can be considered only if all nonfunctional piers on the property are removed except for the project pier. The total expansion may not exceed~~

~~J 35% of the original size of the piers and dry docks removed.~~

~~J 3) A building permit for the repair of an existing dwelling unit or other non water dependent structure on a pier located on State or private wetlands within the Critical Area may be approved.~~

~~J 4) If a structure that is not water dependent is permitted under the exceptions included in this section, an applicant is required to demonstrate that the project~~

~~will meet the following environmental objectives using the standards established herein:~~

~~a) The construction and operation of the project will not have a long term adverse effect on the water quality of the adjacent body of water;~~

66  
4

~~b) The quality of stormwater runoff from the project will be improved; and~~

~~c) Sewer lines or other utility lines extended for the pier will not affect the water quality of adjoining waters.~~

5. Golf Course. See Table I(A)(5.10) in Article 7 above.

A. A golf course, excluding main buildings and/or structures such as the clubhouse, pro-shop, parking lot, etc., may be permitted in Resource Conservation Areas (RCAs) provided:

1) Such use is a permitted use allowed in the underlying zoning district; and

2) Development is in accordance with the official guidance adopted by the Critical Area Commission on August 3, 2005.

6. Existing Industrial Uses. See Table I(A)(6.10) in Article 7 above.

A. Existing industrial facilities and uses, including those that directly support agriculture, forestry, or aquaculture may be permitted in Resource Conservation Areas (RCAs).

B. Expansion of existing industrial facilities and use in the Resource Conservation Area shall be subject to the non-conforming use and Grandfathering provisions, contained in Article 12, and may require growth allocation as described in Article 7.

7. New Industrial Uses. See Table I(A)(6.20) in Article 7 above.

A. New industrial uses shall not be permitted in Resource Conservation Areas (RCA).

B. New, expanded or redeveloped industrial facilities may only be permitted in Limited Development Areas (LDA) if permitted uses in the underlying zoning district and provided such facilities meet all requirements for development in the LDA.

C. New, expanded or redeveloped industrial or port-related facilities and the replacement of these facilities may be permitted only in those portions of Intensely Developed Areas (IDAs) that have been designated as Buffer Management Areas.

8. Non-Maritime Heavy Industry. See Table 1(A)(6.30) in Article 7 above.
  - A. Non-maritime heavy industry may be permitted if:
    - 1) The site is located in an Intensely Developed Area (IDA); and
    - 2) The activity or facility has demonstrated to all appropriate local and State permitting agencies that there will be a net improvement in water quality to the adjacent body of water.
  
9. Utility Transmission Facilities. See Table 1(A)(7.10) in Article 7 above.
  - A. Utility transmission facilities, except those necessary to serve permitted uses, or where regional or interstate facilities must cross tidal waters, may be permitted in the Critical Area provided:
    - 1) The facilities are located in Intensely Developed Areas (IDAs); and
    - 2) Only after the activity or facility has demonstrated to all appropriate local and State permitting agencies that there will be a net improvement in water quality to the adjacent body of water.
  - B. These provisions do not include power plants.
  
10. Sanitary Landfill; Rubble Fill. See Table 1(A)(8.10) in Article 7 above.
  - A. Sanitary landfills or rubble fills may not be permitted in the Critical Area unless no environmentally acceptable alternative exists outside the Critical Area, and these development activities or facilities are needed in order to correct an existing water quality or wastewater management problem.
  - B. Existing, permitted facilities shall be subject to the standards and requirements of the Department of the Environment.
  
11. Solid or Hazardous Waste Collection or Disposal Facilities. See Table 1(A)(8.20) in Article 7 above
  - A. Solid or hazardous waste collection or disposal facilities, including transfer stations may not be permitted in the Critical Area unless no environmentally acceptable alternative exists outside the Critical Area, and these development activities or facilities are needed in order to correct an existing water quality wastewater management problem.
  - B. Existing, permitted facilities shall be subject to the standards and requirements of the Department of the Environment.
  
12. Sludge Facilities. See Table 1(A)(8.40) in Article 7 above.
  - A. Permanent sludge handling, storage and disposal facilities, other than those associated with wastewater treatment facilities may be permitted in the Critical Area provided:
    1. The facility or activity is located in an Intensely Developed Areas; and
    2. Only after the activity or facility has demonstrated to all appropriate local and State permitting agencies that there will be a net improvement in water quality to the adjacent body of water.
  - B. Agricultural or horticultural use of sludge under appropriate approvals when applied by an approved method at approved application rates may be permitted in the Critical Area, except in the 100 foot-Buffer.

## Section 12.5 Grandfathering in the Critical Area

### 1. Continuation of existing uses.

- A. The continuation, but not necessarily the intensification or expansion, of any use in existence on January 1988 may be permitted, unless the use has been abandoned for more than one year or is otherwise restricted by existing municipal regulations.
- B. If any existing use does not conform, its intensification or expansion may be permitted only in accordance with the Variance procedures contained in Article 14.

### 2. Residential density on Grandfathered Lots.

- A. Except as otherwise provided, the following types of land are permitted to be developed with a single-family dwelling, if a dwelling is not already placed there, notwithstanding that such development may be inconsistent with the density provisions described in Article 7.

1) Any land on which development activity has progressed to the point of pouring of foundation footings or the installation of structural members;

2) A legal parcel of land, not being part of a recorded or approved subdivision that was recorded as of December 1, 1985.

3) Land that received a building permit subsequent to December 1, 1985, but prior to February 1989.

4) Land that was subdivided into recorded, legally buildable lots, where the subdivision received final approval between June 1, 1984 and December 1, 1985.

5) Land that was subdivided into recorded, legally buildable lots, where the subdivision received the final approval after December 1, 1985 and provided that either development of any such land conforms to the IDA, LDA or RCA requirements described in Article 7 or the area of the land has been counted against the growth allocation permitted under Article 7.

### 3. Consistency.

- A. Nothing in this section may be interpreted as altering any requirements for water-dependent facilities or Habitat Protection Areas.
- B. For purposes of implementing this regulation, a local jurisdiction shall have determined, based on land uses and development in existence on December 1, 1985, which land areas fall within the three types of development areas described in this chapter.

## Section 12.6 Lot Consolidation and Reconfiguration in the Critical Area

1. Applicability. The provisions of this section apply to a consolidation or a reconfiguration of any nonconforming legal grandfathered parcel or lot. These provisions do not apply to the reconfiguration or consolidation of parcels or lots, which are conforming or meet all Critical Area requirements. Nonconforming parcels or lots includes:

- A. Those for which a Critical Area Variance is sought or has been issued; and

- B. Those located in the Resource Conservation Area and are less than 20 acres in size.
1. Procedure. An applicant seeking a parcel or lot consolidation or reconfiguration shall provide the information required in COMAR 27.01.02.08.E to the Town of Hillsboro.
  2. The Town of Hillsboro will not approve a proposed parcel or lot consolidation or reconfiguration without making written findings in accordance with COMAR 27.01.02.08.F.
  3. The Planning Commission shall issue a final written decision or order granting or denying an application for a consolidation or reconfiguration.
- C. After a final written decision or order is issued, the Planning Commission shall send a copy of the decision or order and a copy of any approved development plan within ten (10) business days by U.S. mail to the Critical Area Commission's business address.
- D. The Town of Hillsboro may not issue a permit or approval of any type on a property affected by the final written decision or order until after the expiration of the time within which the Commission may file an appeal or petition for judicial review.

#### Section 12.7 Local Development Projects

1. Applicability.

For all development in the Critical Area resulting from any action by the [Municipality] on local or privately owned lands, the [Municipality] shall adhere to COMAR 27.02.02, COMAR 27.02.04 and COMAR 27.02.06.

2. Procedures.

A. If the project meets the provisions of this Ordinance and is minor development, the [Planning Department] shall prepare a consistency report and submit a copy of the report with relevant plans and information about the project to the Critical Area Commission per the requirements of COMAR 27.02.02.

B. If the project does not meet the provisions of this Ordinance, the [Planning Department] shall seek a conditional approval by the Critical Area Commission per the requirements of COMAR 27.02.06.

C. The Town of Hillsboro shall submit information as required in the Critical Area Commission's Project Subcommittee Application Instructions and Checklist.

D. Notice and posting requirements for projects reviewed and approved by the Critical Area Commission.

Public notice is required for all development projects that qualify under COMAR 27.03.01.03. Public notice shall be the responsibility of the [Municipality] and evidence that those requirements have been met shall be included as part of the submittal to the Critical Area Commission.

#### Section 14.3 Variances in the Critical Area

1. Applicability. The Town of Hillsboro has established provisions where, owing to special features of a site or other circumstances, implementation of the Critical Area Program or a literal enforcement of provisions within this Zoning Ordinance pertaining to the Critical Area would result in unwarranted hardship, a Critical Area

Variance may be obtained.

A. In considering an application for a Variance, the Board of Zoning Appeals shall presume that the specific development activity in the Critical Area, that is subject to the application and for which a Variance is required, does not conform with the general purpose and intent of Natural Resources Article, Title 8 Subtitle 18, COMAR Title 27, and the requirements of this Chapter.

B. Unwarranted hardship means that without a Variance, an applicant would be denied reasonable and significant use of the entire parcel or lot for which the Variance is requested.

2. Standing. In accordance with Natural Resources Article, §8-1808(d)(2), Annotated Code of Maryland, if a person meets the threshold standing requirements under federal law, the person shall have standing to participate as a party in a local administrative proceeding

3. Standards. The provisions for granting such a Variance shall include evidence submitted by the applicant that the following standards are met:

A. Due to special features of the site or special conditions or circumstances exist that are peculiar to the land or structure involved and that a literal enforcement of Critical Area provisions and requirements would result in unwarranted hardship;

B. A literal interpretation of the Critical Area provisions of this Chapter will deprive the applicant the use or land or a structure permitted to others in accordance with the provisions of this Critical Area Ordinance;

C. The granting of a Variance will not confer upon an applicant any special privilege that would be denied by the Critical Area provisions of this Chapter to other lands or structures in accordance with the provisions of this Critical Area Ordinance; within the Critical Area;

D. The Variance request is not based upon conditions or circumstances, which are the result of actions by the applicant, including the commencement of development activity before an application for a Variance has been filed, nor does the request arise from any condition relating to land or building use, either permitted or non-conforming on any neighboring property; and

E. The granting of a Variance shall not adversely affect water quality or adversely impact fish, wildlife or plant habitat within the Critical Area and the granting of the Variance will be in harmony with the general spirit and intent of the Critical Area Law and the Critical Area provisions and requirements in this Zoning Ordinance.

4. Process. Applications for a Variance will be made in writing to the Board of Zoning Appeals with a copy provided to the Critical Area Commission. The Board of Zoning Appeals shall follow its established procedures for advertising and notification of affected landowners.

A. After hearing an application for a Critical Area Variance, the Board of Zoning Appeals shall make written findings reflecting analysis of each standard. With due regard for the person's technical competence, and specialized knowledge, the written findings may be based on evidence introduced and testimony presented by:

- (1)           The applicant;
- (2)           Town of Hillsboro or any other government agency; or
- (3)           Any other person deemed appropriate by Town of Hillsboro.

- B. If the Variance request is based on conditions or circumstances that are the result of actions by the applicant, the Board of Zoning Appeals shall consider that fact.
- C. The applicant has the burden of proof and the burden of persuasion to overcome the presumption of nonconformance.

#### 5. After-the-Fact Requests

(A) A local jurisdiction may not accept an application of a variance to legalize a violation of this subtitle, including an unpermitted structure or other development activity until the local jurisdiction:

- (1) Issues a notice of violation; and
- (2) Assesses an administrative or civil penalty for the violation.

(B) The Town of Hillsboro may not issue a permit, approval, variance, or special exception to legalize a violation of this Ordinance unless an applicant has:

- (1) Fully paid all administrative, civil and criminal penalties imposed under Natural Resources Article, §8-1808(c)(1), Annotated Code of Maryland;
- (2) Prepared a restoration or mitigation plan, approved by the local jurisdiction, to abate impacts to water quality or natural resources as a result of the violation; and
- (3) Performed the abatement measures in the approved plan in accordance with the local Critical Area Ordinance.

(C) If the Board denies the requested after-the-fact variance, then the Town of Hillsboro shall:

- (1) Order removal or relocation of any structure; and
- (2) Order restoration of the affected resources.

~~D. Findings. Based on competent and substantial evidence, the Board of Zoning Appeals shall make written findings as to whether the applicant has overcome the presumption of nonconformance. With due regard for the person's technical competence, and specialized knowledge, the written findings may be based on evidence introduced and testimony presented by:~~

~~1.A. The applicant;~~

~~B. Town Officials or staff or any other government agency; or~~

~~C. Any other person deemed appropriate by the Board of Zoning Appeals.~~

E.D. Appeals. Appeals from decisions concerning the granting or denial of a Variance under these regulations shall be taken in accordance with all applicable laws and procedures for Variances. Variance decisions by the Board of Zoning Appeals may be appealed to the Circuit Court in accordance with the Maryland Rules of Procedure. Appeals may be taken by any person, firm, corporation or governmental agency aggrieved or adversely affected by any decision made under this Article, or any person with standing as describe above.

F.E. Conditions and mitigation. The Board of Zoning Appeals shall impose conditions on the use or development of a property, which is granted a Variance as it may find reasonable to ensure that the spirit and intent of this Article is maintained including, but not limited to the following:

- (1) Adverse impacts resulting from the granting of the Variance shall be mitigated as

recommended by the Planning Commission, but not less than by planting on the site at the rate of at least three to one per square foot of the Variance granted.

- (2) New or expanded structures or lot coverage shall be located the greatest possible distance from mean high water, the landward edge of tidal wetlands, tributary streams, nontidal wetlands, or steep slopes.

G.F. Commission notification. Within ten (10) working days after a written decision regarding a variance application is issued, a copy of the decision will be sent to the Critical Area Commission. No permit for the activity that was the subject of the application will be issued until the applicable 30-day appeal period has elapsed.

### Section 16.10 ~~Amendments Program Changes~~ in the Critical Area

1. Amendments. The Town Commissioners of Hillsboro may from time to time amend the Critical Area provisions in this Zoning Ordinance. Changes may include, but are not limited to amendments, revisions, and modifications to these zoning regulations, Critical Area Maps, implementation procedures, and local policies that affect the Town of Hillsboro's Critical Area. All such amendments, revisions, and modifications shall also be approved by the Critical Area Commission as established in §8-1809 of the Natural Resources Article of the Annotated Code of Maryland. No such amendment shall be implemented without approval of the Critical Area Commission. Standards and procedures for Critical Area Commission approval of proposed amendments are as set forth in the Critical Area Law §8-1809(i) and §8-1809(d), respectively.

#### 2. Comprehensive Review

- A. The Town of Hillsboro will review its entire Program and propose any necessary amendments to its entire Program, including this Ordinance, at least every ten (10) years in accordance with Natural Resources Article, §8-1809(g).
- B. The Town of Hillsboro shall notify the Commission in writing if it requires a one (1) year extension to the ten year deadline of [insert date]
- C. Shall notify the Commission in writing, within 60 days after the completion of its review, in accordance with all requirements established in Natural Resources Article, §8-1809(g).

Commented [MG12]: 10-year deadline from review

#### 3. Zoning map amendments.

- A. The Town of Hillsboro may grant a zoning map amendment in the Critical Area if the map amendment:
  - (1) Is wholly consistent with the Critical Area land classification; or
  - (2) If not consistent with the Critical Area land classification:
    - a. Proposes the use of a part of the remaining growth allocation; or
    - b. Proposes to change the Critical Area land classification from either an IDA to an LDA or an RCA, or from an LDA to an RCA.

B. The Town of Hillsboro may grant a change to the Critical Area land classification on proof of mistake if the proposed Critical Area classification:

(1) Conforms to the State Critical Area mapping criteria based on land uses in existence either:

a. As of December 1, 1985 if part of the originally mapped Critical Area;  
or

b. As of the date the land was included in the Critical Area due to a Critical Area boundary remapping effort;

(2) Follows the Town of Hillsboro's documented mapping methodology for Critical Area classification at the time of mapping; and

(3) Is consistent with the purposes, policies, and goals of the Critical Area law and regulations.

~~2. Except for program amendments or program refinements developed during a six-year comprehensive review, a zoning map amendment may only be granted by the Hillsboro Town Commissioners upon proof of a mistake in the existing zoning. This requirement does not apply to proposed changes to a zoning map that meet the following criteria:~~

~~3. —~~

~~4. Are wholly consistent with the land classifications as shown on the adopted Critical Area Overlay Map; or~~

~~5. —~~

~~6. The use of growth allocation in accordance with the growth allocation provisions set forth in Article 7 is proposed.~~

7.4. Process.

A. When an amendment is requested, the applicant shall submit the amendment to the Planning Commission for review and research. Upon completing Findings of Fact, these documents shall be forwarded to the Hillsboro Town Commissioners.

B. The Hillsboro Town Commissioners shall hold a public hearing at which parties of interest and citizens shall have an opportunity to be heard. At least fourteen (14) days notice of the time and place of such hearing shall be published in a newspaper of general circulation in Hillsboro.

C. After the Hillsboro Town Commissioners approve an amendment, they shall forward their decision and applicable resolutions along with the amendment request to the Critical Area Commission for final approval.

#### 5. Adoption of a Program Amendment or Refinement.

If approved by the Critical Area Commission, Town of Hillsboro shall incorporate a program amendment or refinement into its adopted Critical Area Program, including any conditions of approval, within 120 days of receiving notice from the Chairman of the Commission.

## Section 17.7 Enforcement in the Critical Area

1. Consistency. The Critical Area provisions of this Zoning Ordinance, in accordance with the Critical Area Act and Criteria supersede any inconsistent law, regulation, or plan of the Town of Hillsboro. In the case of conflicting provisions, the stricter provisions shall apply.
2. Violations.
  - A. No person shall violate any provision of the Critical Area. Each violation that occurs and each calendar day that a violation continues shall be a separate offense [subject to separate fines, orders, sanctions or other penalties](#).
  - B. Each person who violates a provision shall be subject to separate administrative civil penalties, abatement and restoration orders, and mitigation for each offense.
  - C. Noncompliance with any permit or order issued by the Town related to the Critical Area shall be a violation and shall be enforced as provided herein.
3. Responsible persons. The following persons may each be held jointly or severally responsible for a violation: (1) persons who apply for or obtain any permit or approval, (2) contractors, (3) subcontractors, (4) property owners, (5) managing agents, or (6) any person who has committed, assisted, or participated in the violation.
4. Required enforcement action. In the case of violations, the Town shall take enforcement action including:
  - A. Assess administrative civil penalties as necessary to cover the costs associated with performing inspections, supervising or rendering assistance with identifying and citing the violation, issuing abatement and restoration orders, and reviewing mitigation plans and ensuring compliance with these plans;
  - B. Issue abatement, restoration, and mitigation orders as necessary to:
    - a. Stop unauthorized activity;
    - b. Restore and stabilize the site, as appropriate, to its condition prior to the violation or to a condition that provides the same water quality and habitat benefits; and
  - C. Require the implementation of mitigation measures, in addition to restoration activities, to offset the environmental damage and degradation or loss of environmental benefit resulting from the violation.
  - D. [Assessing an administrative fine or pursuing a civil penalty in accordance with Administrative Civil Penalties below.](#)
  - E. Right to enter property. Except as otherwise authorized and in accordance with the procedures specified herein, the Hillsboro Town Commissioners or their designee may obtain access to and enter a property in order to identify or verify a suspected violation, restrain a development activity, or issue a citation if the Town has probable cause to believe that a violation has occurred, is occurring, or will occur. Town officials shall make a reasonable effort to contact a property owner before obtaining access to or enter the property. If entry is denied, the Town may seek an injunction to enter the property to pursue an enforcement action.
5. Administrative civil penalties. In addition to any other penalty applicable under State or Town law,

every violation of a provision of Natural Resources Article, Title 8 Subtitle 18 or Critical Area provisions of this Zoning Ordinance shall be punishable by a civil penalty of up to \$10,000 per calendar day.

A. Before imposing any civil penalty, the person(s) believed to have violated shall receive: written notice of the alleged violation(s) including which, if any, are continuing violations, and an opportunity to be heard. The amount of the civil penalty for each violation, including each continuing violation, shall be determined separately. For each continuing violation, the amount of the civil penalty shall be determined per day. In determining the amount of the civil penalty, the Town shall consider:

1. The gravity of the violation;
2. The presence or absence of good faith of the violator;
3. Any willfulness or negligence involved in the violation including a history of prior violations;
4. The environmental impact of the violation; and
5. The cost of restoration of the resource affected by the violation and mitigation for damage to that resource, including the cost to the Town of Hillsboro for performing, supervising, or rendering assistance to the restoration and mitigation.

B. Administrative civil penalties for continuing violations shall accrue for each violation, every day each violation continues, with no requirements for additional assessments, notice, or hearings for each separate offense. The total amount payable for continuing violations shall be the amount assessed per day for each violation multiplied by the number of days that each violation has continued.

C. The person responsible for any continuing violation shall promptly provide the Town with written notice of the date(s) the violation has been or will be brought into compliance and the date(s) for Town inspection to verify compliance. Administrative civil penalties for continuing violations continue to accrue as set forth herein until the Town receives such written notice and verifies compliance by inspection or otherwise.

D. Assessment and payment of administrative civil penalties shall be in addition to and not in substitution for recovery by the Town of all damages, costs, and other expenses caused by the violation.

E. Payment of all administrative civil penalties assessed shall be a condition precedent to the issuance of any permit or other approval required.

6. Cumulative remedies. The remedies available to the Town are cumulative and not alternative or exclusive, and the decision to pursue one remedy does not preclude pursuit of others.

~~7. Injunctive relief. The Town may institute injunctive or other appropriate actions or proceedings to bring about the discontinuance of any violation, an administrative order, a permit, a decision, or other imposed condition.~~

~~F. The pendency of an Appeal to the Board of Zoning Appeals or subsequent judicial review shall not prevent the Town from seeking injunctive relief to enforce an administrative order, permit, decisions, or other imposed condition, or to restrain a violation pending the outcome of the Appeal or judicial review.~~

8-7. Variances pursuant to a violation. The Town may accept an application for a Variance regarding a parcel or lot that is subject to a current violation or any provisions of an order, permit, plan, or the Critical Area provisions in accordance with the Variance provisions of Article 14 pertaining to the Critical Area. However, the application shall not be reviewed, nor shall a final decision be made until all abatement, restoration, and mitigation measures have been implemented and inspected by the Town.

9-8. Permits pursuant to a violation. The Town will not issue any Permit, Approval, Variance, or Special Exception, that is subject to the violation, unless the person seeking the permit has:

- A. Fully paid all administrative, civil, or criminal penalties as set forth in §6 above;
- B. Prepared a restoration or mitigation plan, approved by the Town, to abate impacts to water quality or natural resources as a result of the violation;
- C. Performed the abatement measures in the approved plan in accordance with all Town regulations; and
- D. Unless an extension of time is approved by the Town because of adverse planting conditions, within 90 days of the issuance of a Permit, Approval, Variance, or Special Exception for the affected property, any additional mitigation required as a condition of approval for the Permit, Approval, Variance, or Special Exception shall be completed.

9. Appeals. An Appeal to the Board of Zoning Appeals may be filed by any person aggrieved by any order, requirement, decision or determination by the Town in connection with the administration and enforcement of the Critical Area provisions.

- A. An Appeal is taken by filing a written notice of Appeal with the Board of Zoning Appeals in accordance with the provisions of Article 15 and accompanied by the appropriate filing fee.
- B. An Appeal must be filed within thirty (30) days after the date of the decision or order being appealed; and
- C. An Appeal stays all actions by the Town seeking enforcement or compliance with the order or decisions being appealed, unless the Town certifies to the Board of Zoning Appeals that (because of facts stated in the certificate) such stay will cause imminent peril to life or property. In such a case, action by the Town shall not be stayed except by order of a court on application of the party seeking the stay.
- D. The Board of Zoning Appeals shall notify the Critical Area Commission of its findings and decision to grant or deny the Variance request.

**Commented [MG13]:** Maintain, or replace with Model language: "For any violation that requires a variance to this Ordinance, the Town of Hillsboro shall follow the after-the-fact variance provisions in Article 12."
