This quick start guide shows the basics on how to customize your account, submit a daily fishing trip, and report harvest using FACTS™. Please refer to the user manuals for complete details.

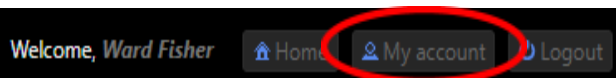

BEST REPORTING PRACTICES

- Submit a trip start hail **before** you leave the dock
- Trip start hails should be revised if your crew count, gear type/amount, anticipated landing time or location changes. Revisions should be sent **right away if there is a change in crew count** and **at least 30 minutes prior to a new landing time and/or location**.
- Submit a trip end hail **before** you return to the dock
- You can revise your end hail to more accurately match your harvest weight and count within FACTS' 24hr clock. Midnight to midnight for most trips, or noon to noon for overnight finfish or charter trips using "Bow and Arrow".

FISHER PREFERENCES - SET UP BEFORE HARVESTING TO SAVE TIME
