9. Certification by Signature

I hereby affirm that the information documented on this form, as well as any exhibits, documentations, and maps, are truthful to the best of my knowledge. I also understand that false statements made on this application will be considered violations of the out of state fish supplier permit and the Maryland Department of Natural Resources may terminate the permit in accordance with the provisions of Maryland Administrative Procedure Act as described under COMAR 08.02.14.12.

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

**Please Note:** Fish Health Inspections terminate one year from the effective date of the inspection, or upon discovery of a prohibited or regulated disease, provided that no new fish from an uncertified source are added to the population. You are required to provide an up to date Fish Health Inspection report from the fish sources documented on your Out of State Fish Supplier Permit. If a new Fish Health Inspection is not provided, fish sourced from the location will be removed from your permit and an amended permit will be issued. You are responsible for notifying the Department of Natural Resources if any fish are added to the population of your isolation facility from sources other than those listed on your application. These additional fish are required to demonstrate suitable fish health inspections.
