Title 08 DEPARTMENT OF NATURAL RESOURCES

Subtitle 02 FISHERIES SERVICE

08.02.01 General

Authority: Natural Resources Article, §4-1006.1, Annotated Code of Maryland

Notice of Proposed Action

[20-028-P]

The Secretary of Natural Resources proposes to amend Regulation .12 under **COMAR 08.02.01 General**.

Statement of Purpose

The purpose of this action is to add certain areas that meet the criteria under Natural Resources Article, §4-1006.1, Annotated Code of Maryland, as submerged aquatic vegetation (SAV) protection zones and remove certain areas that no longer meet the criteria to remain as SAV protection zones. Natural Resources Article, §4-1006.1, Annotated Code of Maryland, requires the Department to create SAV protection zones and update those zones every 3 years using data from an annual aerial survey compiled by the Virginia Institute of Marine Sciences (VIMS) for the annual Bay-wide Submerged Aquatic Vegetation Mapping Program.

The areas to be added based on the VIMS data from 2016 and 2019 include areas in Old Colony Cove in Anne Arundel County, areas near Broomes Island and Solomons Island in Calvert County, areas near Cook Point in Dorchester County, areas north of Eastern Neck Island in Kent County, areas in Crab Alley Bay, Prospect Bay, and the Wye River in Queen Anne's County, areas in or near Bloodsworth Island, South Marsh Island, Deal Island, Manokin River, Big Annemessex River, Little Annemessex River, Janes Island, Cedar Island, Ape Hole Creek, and Gunby Creek in Somerset County, areas downstream of Breton Bay in the Potomac River, areas near Smith Creek, an area near Lake Conoy on the Potomac River and an area near the Webster Field Annex in St. Mary's County, areas in the Miles River, Eastern Bay, Harris Creek, and Black Walnut Cove in Talbot County, and areas in Sinepuxent Bay in Worcester County.

The areas to be removed based on the VIMS data from 2016 and 2019 include areas near Deal Island in Somerset County, areas in the Potomac River near St. George Island in St. Mary's County and areas in Assawoman Bay, Sinepuxent Bay, Rowley Cove, and Parker Bay in Worcester County.

Comparison to Federal Standards

There is no corresponding federal standard to this proposed action.

Estimate of Economic Impact

I. Summary of Economic Impact. The proposed action has an economic impact on the Department due to the cost of buoy placement. The proposed action has a noneconomic impact on the regulated industry or small businesses because very little, if any, of the newly protected area is used for commercial clamming purposes.

II. Types of Economic Impact.	Revenue (R+/R-)	Magnitude
	Expenditure (E+/E-)	
A. On issuing agency:		
Buoy placement	(E+)	\$105,750
B. On other State agencies:	NONE	
C. On local governments:	NONE	
	Benefit (+) Cost (-)	Magnitude
D. On regulated industries or trade groups:	NONE	
E. On other industries or trade groups:	NONE	
F. Direct and indirect effects on public:	NONE	

III. Assumptions. (Identified by Impact Letter and Number from Section II.)

A. The average cost to the Department to place a buoy is \$450. At a maximum, it is believed that 235 new buoys will need to be placed to mark the new submerged aquatic vegetation protection zones as required by Natural Resources Article, §4-1006.1, Annotated Code of Maryland. The total maximum cost to the Department would therefore be \$105,750.

Economic Impact on Small Businesses

The proposed action has minimal or no economic impact on small businesses.

Impact on Individuals with Disabilities

The proposed action has no impact on individuals with disabilities.

Opportunity for Public Comment

Comments may be sent to SAV Regulations, Regulatory Staff, Department of Natural Resources, Fishing and Boating Services, 580 Taylor Avenue, B-2, Annapolis, MD 21401, or call 410-260-8300, or email to fisheriespubliccomment.dnr@maryland.gov, or fax to 410-260-8310. Comments will be accepted through March 2, 2020. A public hearing has not been scheduled.

Subtitle 03 WILDLIFE

08.03.15 Wildlife Damage Control Permits

Authority: Natural Resources Article, §10-205, Annotated Code of Maryland

Notice of Proposed Action

[20-038-P]

The Secretary of Natural Resources proposes to amend Regulation .03 under **COMAR 08.03.15 Wildlife Damage Control Permits**.

Statement of Purpose

The purpose of this action is to amend Regulation .03 under COMAR 08.03.15 Wildlife Damage Control Permits to allow a landowner experiencing problems with migratory birds to address the problem solely under the authority of a federal depredation permit issued by the U.S. Fish and Wildlife Service. Existing State regulation requires a landowner to obtain a landowner wildlife damage control permit from the Department in order to address damage or loss caused by wildlife. In the case of migratory birds, a federal depredation permit issued by the U.S. Fish and Wildlife Service is required as well. The Department currently meets its regulatory obligation by cosigning federal depredation permits issued by the U.S. Fish and Wildlife Service; however, the U.S. Fish and Wildlife Service recently announced that it is discontinuing the cosigning practice. Rather than requiring a landowner to redundantly obtain both a permit from the Department and the U.S. Fish and Wildlife Service, the Department is proposing to require only a federal depredation permit.

Comparison to Federal Standards

There is a corresponding federal standard to this proposed action, but the proposed action is not more restrictive or stringent.

Estimate of Economic Impact

The proposed action has no economic impact.

Economic Impact on Small Businesses

The proposed action has minimal or no economic impact on small businesses.
