CONSISTENCY WITH THE EIGHT VISIONS OF THE 1992 PLANNING ACT

The 1992 Planning Act establishes Maryland's growth management policies in the form of the eight visions. The intent of the Act is to provide a unifying set of principles to guide local and State actions at all stages of activity from general comprehensive planning through implementation of those plans by means of State and local operation, regulatory, and capital programs.

The Eight Visions:

- 1. Development is concentrated in suitable areas;**
- 2. Sensitive areas are protected;**
- 3. In rural areas, growth is directed to existing population centers and resource areas are protected;**
- 4. Stewardship of the Chesapeake Bay and the land is a universal ethic;**
- 5. Conservation of resources, including a reduction in resource consumption, is practiced;**
- 6. To assure the achievement of paragraphs 1-5, economic growth is encouraged and regulatory mechanisms are streamlined;**
- 7. Adequate public facilities and infrastructure under control of the county or municipal corporation area are available or planned in areas where growth is to occur; and**
- 8. Funding mechanisms are addressed to achieve the visions.**
