

**FEBRUARY 19, 2019**  
**LAND TRUST ROUNDTABLE**  
10:00AM -2:00PM

---

## **LandLink Tools for Data Collection & Management**

---

DESCRIPTION:

This Roundtable will feature an update from the Chesapeake Conservancy's Conservation Innovation Center (CIC) on the new LandLink tools for data collection and management. This Roundtable will build off previous conversations regarding CIC development and MET's pilot of CIC's field data collection app from KOBO. This new monitoring toolset is now referred to as Landlink.

Land trusts and conservation partners will learn more about the monitoring toolset and its capabilities; what data is necessary to adopt the tool and costs associated with using the tool (including grant funding and other costs for ongoing support).

PRESENTER:

**Jeff Allenby** Conservation Innovation Center - Director of Conservation Technology
