Introductions

Logic Model for Charting a Path for GCG

- [Logic Model](#) reviewed and WG members asked to provide input to the model particularly in:
 - o Background, current job landscapes, our current “inputs”, and possible outputs
- Focus on skill building in preparation for career, college, and life in a technologically advancing world

Maryland Landscape for Green and Blue Careers

- Resources shared to build upon for reference
 - [Workforce Action Team Report](#) (Chesapeake Bay Program)
 - [Project Green Classrooms](#) - Maryland Conservation Careers guide

- Junior Achievement of the Eastern Shore
 - o [Inspire event](#)
 - o Biztown events
- Key questions and ideas for products
 - o Defining 'green, blue and carbon neutral' careers for data analysis
 - o Defining 'durable' skills and their overlap between industries
 - o Identifying key skills necessary for defined green jobs in Maryland
 - Potential to bring in information on building permitting and current construction projects in Maryland to define skills necessary
 - o Is there an opportunity for curriculum development after key skills are identified?
- Proposition for in-person meeting event for the CGC Working Group

Meeting Closed at 11:01 AM
