

Deep Creek Lake NRMA General Permit Conditions

Special Permit

1. This permit expires on _____.
2. In order to provide for inspection of the work site, the permittee must notify by telephone the Deep Creek Lake NRMA office at 301-387-4111 at least 48 hours before the approved work is to initiate.
3. Except for work personally performed by the permittee, the contractor or others doing the work for hire must possess any required government professional or business licenses.
4. Except for work personally performed by the permittee, cutting or trimming of trees under this permit must be done by a person who possesses a valid “Licensed Tree Expert” license issued by the Department of Natural Resources – Forest Service.
5. A copy of this permit must be available on the work site and provided to a member of the Deep Creek Lake NRMA staff or a Natural Resources Police officer upon request during work site inspections.
6. The Deep Creek Lake NRMA office must be notified within 48 hours of the completion of work so that a site inspection may be made in a timely manner.
7. Violation of the Deep Creek Lake Regulations or any permit condition may lead to the issuance of a Criminal citation or suspension/revocation of buffer strip use permit privileges.
