Programs

Skulls and Tracks, 1 pm @ Nature Center: Even though you may not see them, there are many ways we know that animals are here. Learn about different animals and their tracks, where to look for signs in the wild, and how to identify them.

Wildlife Hike, 12 pm @ Nature Center: Join us for a guided hike - search for wildlife and enjoy the autumnal atmosphere and seasonal changes. (This event is contingent upon weather).

Winter is Coming, 1 pm @ Nature Center: Plants and animals have to make some significant changes in order to survive the cold months ahead. Learn about some of these adaptations, play a "Bird Migration" game (try to survive the migratory challenges!), and turn autumnal natural items into artwork.
