

WILDFLOWER LETTERBOX

Soldiers Delight is a work in progress to provide the right habitat for nearly 40 rare, threatened, and endangered plants. Restoration work is done largely by volunteers who cut down invasive plants and help with prescribed burns. You will see many different stages of this restoration process on this hike. To get to this letterbox you must go to where Yellow, Red, and Orange meet. There you will find three signs and a post with the number 3 on it. To find the location of this letterbox you must look on the back of the signs and post. Start by facing the # 3 post - go to the sign straight ahead and work clockwise. Look at the back of the signs to fill in the blanks. End at the # 3 post for the last but very important clue. Don't forget to write it down.

To find this letterbox go to the Blue _____ house by _____ Dog Lodge.
