

## Steering Committee Education

Following is a partial list of topics from the Deep Creek Lake Watershed Management Plan list of Elements of the Report. These are the topics suggested for presentations to the Steering Committee from the experts. Steering Committee members may find that background information is helpful when writing and/or making decisions about the Management Plan goals/objectives/strategies. The first topic is already scheduled for presentation at the November meeting.

<b>TOPIC</b>	<b>MONTH</b>
<b>Agriculture</b>	<b>November</b>
<b>Land Use and Growth (and possibly septics) in Garrett county and the connection between the Water Resources Element of the Comprehensive Plan and the DCLWMP</b>	<b>December</b>
<b>Stormwater Management practices</b>	<b>January</b>
<b>SAV</b>	<b>February</b>
<b>Sediment</b>	<b>March</b>
<b>Streams</b>	<b>April or May</b>
<b>Forestry</b>	<b>April or May</b>

Also note: The topics of Water Quality (to include geese), Recreation (to include boating capacity), and Fisheries will be addressed by way of packets of educational materials provided to the SC unless the members of the Steering Committee feel otherwise.

WORKING DOC for 4/10/13 SC Meeting
