# Maryland E-Reporting with FACTS™

Simple. Fast. Accurate.

Multiple options to report your commercial harvest in real-time:
Speak with a Call Center operator
Mobile Website (smartphone or computer)

Daily Reporting Steps

- Trip Start Hail
- Harvest Verification
- Update (Revise) or Cancel
- Update (Revise) or Cancel
- Trip End Hail (include harvest details)

Step	Best Reporting Practice
Trip Start Hail	Send in morning BEFORE leaving the dock.
Update Trip Start Hail	Change in crew count, revise right away. Change in landing time and/or location, revise 30 minutes prior to new time/location.
Trip End Hail	Send after actively harvesting for the day, but BEFORE returning to the dock.
Update Trip End Hail	Update when any information changes from the original trip end hail. For finfish species other than striped bass, update harvest to match final weight and count.
Cancel Trip	Cancel if fishing did not occur. If accidentally canceled, then start the trip over and re-enter your information as soon as possible.
